## Fiber I

Session Type: Lecture

Session Code: A1L-A

Location: Main Aula

Date & Time: Tuesday, June 24, 2014 (9:00 - 10:40)

Chair: Per Olof Hedekvist, SP Technical Research Institute of Sweden

## [INVITED: NEAT-FT: The European Fiber Link Collaboration](#) ..... 1

*H. Schnatz, Physikalisch-Technische Bundesanstalt; G. Bolognini, Consiglio Nazionale delle Ricerche; D. Calonico, Istituto Nazionale di Ricerca Metrologica; E. Dierikx, Dutch Metrology Institute; G. Grosche, Physikalisch-Technische Bundesanstalt; P.O. Hedekvist, SP Technical Research Institute of Sweden; A. Kuna, Institute of Photonics and Electronics; G. Marra, National Physical Laboratory; M. Merimaa, Centre for Metrology and Accreditation; A. Niessner, Bundesamt für Eich - und Vermessungswesen; P.E. Pottie, Observatoire de Paris; Ł. Śliwczyński, AGH University of Science and Technology; R. Slavik, University of Southampton; V. Smotlacha, CESNET; F. Spahic, Institut za Mjeriteljstvo Bosne i Hercegovine*

## [Optical Frequency Transfer with a 1284 km Coherent Fiber Link](#) ..... 2

*D. Calonico, Istituto Nazionale di Ricerca Metrologica; E.K. Bertacco, Istituto Nazionale di Ricerca Metrologica; C. Calosso, Istituto Nazionale di Ricerca Metrologica; C. Clivati, Istituto Nazionale di Ricerca Metrologica; G.A. Costanzo, Politecnico di Torino; A. Godone, Istituto Nazionale di Ricerca Metrologica; M. Frittelli, Istituto Nazionale di Ricerca Metrologica; A. Mura, Istituto Nazionale di Ricerca Metrologica; N. Poli, Università degli Studi di Firenze; D.V. Sutyryn, Università degli Studi di Firenze; G.M. Tino, Università degli Studi di Firenze; M. Zucco, Istituto Nazionale di Ricerca Metrologica; F. Levi, Istituto Nazionale di Ricerca Metrologica*

## [High Resolution Characterisation of a 450-km-Baseline GPS Carrier Phase Link via Optical Fibre](#) ..... 3

*Stefan Droste, Max Planck Institute of Quantum Optics; Christian Grebing, Physikalisch-Technische Bundesanstalt; Julia Leute, Physikalisch-Technische Bundesanstalt; Sebastian Raupach, Physikalisch-Technische Bundesanstalt; Andreas Bauch, Physikalisch-Technische Bundesanstalt; Ronald Holzwarth, Max Planck Institute of Quantum Optics; Gesine Grosche, Physikalisch-Technische Bundesanstalt*

## [Novel Techniques for Optical Fiber Links Beyond Current Practice](#) ..... 4

*Claudio E. Calosso, Istituto Nazionale di Ricerca Metrologica; Elio Bertacco, Istituto Nazionale di Ricerca Metrologica; Davide Calonico, Istituto Nazionale di Ricerca Metrologica; Cecilia Clivati, Istituto Nazionale di Ricerca Metrologica; Giovanni A. Costanzo, Istituto Nazionale di Ricerca Metrologica / Politecnico di Torino; Matteo Frittelli, Istituto Nazionale di Ricerca Metrologica; Filippo Levi, Istituto Nazionale di Ricerca Metrologica; Salvatore Micalizio, Istituto Nazionale di Ricerca Metrologica; Alberto Mura, Istituto Nazionale di Ricerca Metrologica; Aldo Godone, Istituto Nazionale di Ricerca Metrologica*

## Microsystems Resonators

Session Type: Lecture

Session Code: A1L-B

Location: Room 2 - R.N.02

Date & Time: Tuesday, June 24, 2014 (9:00 - 10:40)

Chair: Emmanuel Defay, LETI

### **INVITED: High Frequency Silicon Nanowire Resonators for Mass Sensing** ..... 5

*Laurent Duraffourg, CEA-Leti*

### **Quartz-Based Vibrating MEMS on Structured Silicon Using Wafer Bonding Technology** ..... 6

*Sebastien Grousset, CEA-Leti; Rachid Taïbi, Office National d'Etudes et Recherches Aéronautiques;  
Lamine Benaissa, CEA-Leti; Emmanuel Augendre, CEA-Leti; Thomas Signamarcheix, CEA-Leti; Olivier Le  
Traon, Office National d'Etudes et Recherches Aéronautiques; Sylvain Ballandras, freq | n | sys SAS*

### **Effects of a Plasma Etching Process on a Longitudinally Coupled Resonator Filter** ..... 7

*L. Braun, AR Electronique SAS; E. Courjon, freq | n | sys SAS; O. Franquet, AR Electronique SAS; W. Daniau,  
FEMTO-ST Institute; T. Baron, FEMTO-ST Institute; S. Ballandras, freq | n | sys SAS*

### **Active Electronic Cancellation of Nonlinearity in a High-Q Longitudinal-Mode Silicon Resonator by Current Biasing** ..... 8

*Haoshen Zhu, City University of Hong Kong; Cheng Tu, City University of Hong Kong; Libor Rufer, TIMA  
Laboratory; Joshua Lee, City University of Hong Kong*

## Sensors & Resonators

Session Type: Lecture

Session Code: A1L-C

Location: Room 3 - R.E.48

Date & Time: Tuesday, June 24, 2014 (9:00 - 10:40)

Chair: Leonhard Reindl, University of Freiburg

### **INVITED: Ultra-Wide-Band SAW RFID/Sensors** ..... 9

*Victor Plessky, GVR Trade SA; Marc Lamothe, FEMTO-ST Institute / GVR Trade SA*

### **SH-SAW Biosensors for One Step Test** ..... 10

*Hiromi Yatsuda, OJ-Bio Ltd. / Japan Radio Co. Ltd.; Takashi Kogai, Japan Radio Co. Ltd; Mikihiro Goto, Japan  
Radio Co. Ltd; Naoyuki Yoshimura, Japan Radio Co. Ltd*

### **Electromagnetic Induction Readout Silicon-on-Insulator MEMS Resonant Magnetometer** ..... 11

*Weiguan Zhang, City University of Hong Kong; Joshua E.-Y. Lee, City University of Hong Kong*

### **Studying Particulate Adsorption by Drying Droplets on a Microfabricated Electro-Acoustic Resonator** ..... 12

*Abhinav Prasad, University of Cambridge; Arthur T. Zielinski, University of Cambridge; Markus Kalberer,  
University of Cambridge; Roderic L. Jones, University of Cambridge; Ashwin A. Seshia, University of Cambridge*

## Frequency Combs I

Session Type: Lecture

Session Code: A2L-A

Location: Main Aula

Date & Time: Tuesday, June 24, 2014 (11:00 - 12:40)

Chair: Helen Margolis, NPL

### **INVITED: Attoclock** ..... 13

*U. Keller, ETH Zurich*

### **Phase Measurements of Optical Frequency Comb Modes in Microresonators** ..... 14

*Pascal Del'Haye, National Institute of Standards and Technology; William Loh, National Institute of Standards and Technology; Katja Beha, National Institute of Standards and Technology; Scott B. Papp, National Institute of Standards and Technology; Scott A. Diddams, National Institute of Standards and Technology*

### **Frequency Comb Self-Referencing Using an Intra-Cavity SESAM as Fast Opto-Optical Modulator** ..... 15

*Stéphane Schilt, Université de Neuchâtel; Martin Hoffmann, Université de Neuchâtel; Thomas Südmeyer, Université de Neuchâtel*

### **Thin Disk Lasers Enable High-Power Frequency Combs** ..... 16

*Florian Emaury, ETH Zurich; Alexander Klenner, ETH Zurich; Andreas Diebold, ETH Zurich; Cinia Schriber, ETH Zurich; Clara J. Saraceno, ETH Zurich / Université de Neuchâtel; Stéphane Schilt, Université de Neuchâtel; Ursula Keller, ETH Zurich; Thomas Südmeyer, Université de Neuchâtel*

## Physics in Resonators

Session Type: Lecture

Session Code: A2L-B

Location: Room 2 - R.N.02

Date & Time: Tuesday, June 24, 2014 (11:00 - 12:40)

Chair: Ashwin Seshia, University of Cambridge

### **INVITED: Surface Phononic Gratings as Building Blocks of Transducers and Reflectors with Complete Bandgap Characteristics** ..... 17

*Ventsislav Yantchev, Uppsala University*

### **Properties Related to Q-Factors and Noise of Quartz Resonator-Based Systems at 4K** ..... 18

*S. Galliou, FEMTO-ST Institute; M. Goryachev, University of Western Australia; Ph. Abbé, FEMTO-ST Institute; R. Bourquin, FEMTO-ST Institute; M.E. Tobar, University of Western Australia; E.N. Ivanov, University of Western Australia*

### **Assessment of the Acoustic Shear Velocity in SiO<sub>2</sub> and Mo for Acoustic Reflectors** ..... 19

*M. DeMiguel-Ramos, Universidad Politécnica de Madrid; T. Mirea, Universidad Politécnica de Madrid; J. Olivares, Universidad Politécnica de Madrid; M. Clement, Universidad Politécnica de Madrid; J. Sangrador, Universidad Politécnica de Madrid; E. Iborra, Universidad Politécnica de Madrid*

### **Selective Excitation of a Single Mode in a Multimode BAW Resonator** ..... 20

*Victor Plessky, GVR Trade SA; Vladimir Pashchenko, Avangard Ltd; Ventsislav Yantchev, Uppsala University; Vladimir Kalinin, Avangard Ltd*

## Low Noise Microwave & Optical

Session Type: Lecture

Session Code: A2L-C

Location: Room 3 - R.E.48

Date & Time: Tuesday, June 24, 2014 (11:00 - 12:40)

Chair: Jeremy Everard, University of York

<b>INVITED: Ultra-Low Phase Noise Frequency Synthesis for Optical Atomic Frequency Standards</b> .....	21
<i>D.A. Howe, National Institute of Standards and Technology; A. Hati, National Institute of Standards and Technology; C.W. Nelson, National Institute of Standards and Technology</i>	

<b>Photodiode Nonlinear Modeling and its Impact on Optical Links Phase Noise</b> .....	22
<i>Z. Abdallah, LAAS-CNRS / Centre National d'Etudes Spatiales; A. Rumeau, LAAS-CNRS; J. Maxin, LAAS-CNRS / Thales Research and Technology; A. Fernandez, LAAS-CNRS; G. Pillet, Thales Research and Technology; L. Morvan, Thales Research and Technology; O. Llopis, LAAS-CNRS; G. Cibié, Centre National d'Etudes Spatiales</i>	

<b>Latest Improvements in the Performances of a Cryogenic Sapphire Oscillator</b> .....	23
<i>Serge Grop, FEMTO-ST Institute; Benoît Dubois, FEMTO-ST Institute; Jean-Louis Masson, FEMTO-ST Institute; Christophe Fluhr, FEMTO-ST Institute; Yannick Gruson, FEMTO-ST Institute; Yann Kersalé, FEMTO-ST Institute; Enrico Rubiola, FEMTO-ST Institute; Gregory Haye, FEMTO-ST Institute; Vincent Giordano, FEMTO-ST Institute</i>	

<b>Ultra-High Stability Cryocooled Sapphire Microwave Oscillators</b> .....	24
<i>A.P. Hilton, University of Adelaide / University of Western Australia; J.G. Hartnett, University of Adelaide; E.N. Ivanov, University of Western Australia; A.N. Luiten, University of Adelaide</i>	

## Materials & Characterization

Session Type: Poster

Session Code: A3P-D

Location: Mobile Lab - R.O.12

Date & Time: Tuesday, June 24, 2014 (14:00 - 15:40)

Chair: Sunil Bhave, Cornell University

<b>Phase-Sensitive and Fast-Scanning Laser Probe System for Radio Frequency Surface/Bulk Acoustic Wave Devices</b> .....	25
<i>Ken-Ya Hashimoto, Chiba University; Tatsuya Omori, Chiba University</i>	

<b>Analysis of Contributions of Nonlinear Material Constants to Temperature-Induced Velocity Shifts of Quartz and Languisite Surface Acoustic Wave Resonators</b> .....	26
<i>Haifeng Zhang, University of North Texas; John A. Kosinski, MacAulay-Brown, Inc.; Lei Zuo, State University of New York, Stony Brook</i>	

<b>Investigation of Rotated X-Cut <math>\text{Ca}_3\text{TaGa}_3\text{Si}_2\text{O}_{14}</math> Single Crystals Operating in FS Mode in the Temperature Range Up to 900°C</b> .....	27
<i>Andrey Medvedev, Fomos-Materials / Tohoku University; Sergey Sakharov, Fomos-Materials; Oleg Buzanov, Fomos-Materials; Vladimir Alenkov, Fomos-Materials; Tetsuo Kudo, Tohoku University; Yuui Yokota, Tohoku University; Kei Kamada, Tohoku University; Akira Yoshikawa, Tohoku University</i>	

<b>Advanced Ordered Piezoelectric <math>\text{Ca}_3\text{NbGa}_3\text{Si}_2\text{O}_{14}</math> Crystal: Piezoelectric and Acoustic Properties</b> .....	28
<i>Dmitry Roshchupkin, Institute of Microelectronics Technology and High-Purity Materials Russian Academy of Sciences; Olga Plotitsyna, Institute of Microelectronics Technology and High-Purity Materials Russian Academy of Sciences; Dmitrii Irzhak, Institute of Microelectronics Technology and High-Purity Materials Russian Academy of Sciences; Evgenii Emelin, Institute of Microelectronics Technology and High-Purity Materials Russian Academy of Sciences; Oleg Buzanov, Fomos-Materials; Sergey Sakharov, Fomos-Materials</i>	
<b>X-Ray Analysis of Surface and Pseudo-Surface Acoustic Waves Propagation in Disordered <math>\text{La}_3\text{Ga}_5\text{SiO}_{14}</math> and Ordered <math>\text{Ca}_3\text{TaGa}_3\text{Si}_2\text{O}_{14}</math> Crystals</b> .....	29
<i>Olga Plotitsyna, Institute of Microelectronics Technology and High-Purity Materials Russian Academy of Sciences; Dmitry Roshchupkin, Institute of Microelectronics Technology and High-Purity Materials Russian Academy of Sciences; Luc Ortega, Université Paris-Sud 11 / Laboratoire de Physique des Solides; Dmitrii Irzhak, Institute of Microelectronics Technology and High-Purity Materials Russian Academy of Sciences; Evgenii Emelin, Institute of Microelectronics Technology and High-Purity Materials Russian Academy of Sciences</i>	
<b>A Comprehensive Model of the Electrical Response of SAW Devices Submitted to Thermal Perturbation</b> .....	30
<i>Thierry Laroche, <math>\text{frec}   n   \text{sys SAS}</math>; Julien Garcia, <math>\text{frec}   n   \text{sys SAS}</math>; Emilie Courjon, <math>\text{frec}   n   \text{sys SAS}</math>; William Daniau, FEMTO-ST Institute; Sylvain Ballandras, <math>\text{frec}   n   \text{sys SAS}</math></i>	
<b>New LGT Crystal for Ultra-Stable Resonators</b> .....	31
<i>Jean-Jacques Boy, FEMTO-ST Institute; Xavier Vacheret, FEMTO-ST Institute; Maroua Allani, FEMTO-ST Institute; Olivier Bel, RAKON France; Alexandre Clairet, RAKON France; Olivier Cambon, Université Montpellier 2; Hugues Cabane, Cristal Innov - Université Lyon 1</i>	
<b>Femtosecond Heterodyne Pump Probe Platform</b> .....	32
<i>G. Dodane, FEMTO-ST Institute; H. Baida, LOMA, Université Bordeaux 1; S. Euphrasie, FEMTO-ST Institute; D. Teyssieux, FEMTO-ST Institute; J.-M. Rampnoux, LOMA, Université Bordeaux 1; P. Rigail, Amplitude Systems; F. Bertin, CEA-Leti; A. Chabli, CEA LITEN; S. Dilhaire, LOMA, Université Bordeaux 1; P. Vairac, FEMTO-ST Institute</i>	
<b>Study of Surface Acoustic Wave Propagation Using Raman Spectroscopy</b> .....	33
<i>A. Irzhak, Institute of Microelectronics Technology and High-Purity Materials Russian Academy of Sciences; D. Irzhak, Institute of Microelectronics Technology and High-Purity Materials Russian Academy of Sciences; D. Roshchupkin, Institute of Microelectronics Technology and High-Purity Materials Russian Academy of Sciences</i>	
<b>Fundamental Validation of the FEM Based Calculations Concerning Simulation of SAW and LSAW Devices</b> .....	34
<i>Boris Sveshnikov, Lebedev Physical Institute of the Russian Academy of Sciences; Aleksey Koigerov, Saint Petersburg State Electrotechnical University</i>	
<b>Time Scales</b>	
Session Type: Poster	
Session Code: A3P-E	
Location: R.O.14	
Date & Time: Tuesday, June 24, 2014 (14:00 - 15:40)	
Chair: Pierre Uhrich, Observatoire de Paris	
<b>Improvement of Remote Clock Comparisons by GLONASS Signals</b> .....	35
<i>A.S. Bandura, Russian Institute of Radionavigation and Time; P.P. Bogdanov, Russian Institute of Radionavigation and Time; O.E. Nechaeva, Russian Institute of Radionavigation and Time</i>	

<b>Calibration of the TWSTFT Link Between OCA and OP Using a GPS Link Calibration .....</b>	<b>36</b>
<i>Myrtille Laas-Bourez, Géoazur, Université de Nice Sophia-Antipolis; Clément Courde, Géoazur, Université de Nice Sophia-Antipolis; Philippe Guillemot, Centre National d'Etudes Spatiales; Joseph Achkar, Observatoire de Paris; Pierre Ulrich, Observatoire de Paris; Jean-Louis Oneto, Géoazur, Université de Nice Sophia-Antipolis; G. Daniele Rovera, Observatoire de Paris</i>	
<b>Modeling of Low-Stability GPS Receiver Clocks and its Impact on Pseudo-Range Kinematic Coordinates .....</b>	<b>37</b>
<i>Kan Wang, Institute of Geodesy and Photogrammetry, ETH Zurich; Markus Rothacher, Institute of Geodesy and Photogrammetry, ETH Zurich</i>	
<b>Optimal Design of GNSS Satellite Link Emulator Architecture and Adaptive Channel Calibration Algorithm .....</b>	<b>38</b>
<i>Pengpeng Li, National University of Defense Technology</i>	
<b>Development and Applications of a Traceable Time-Transfer System .....</b>	<b>39</b>
<i>Michael J. Wouters, National Measurement Institute; Peter T.H. Fisk, National Measurement Institute; R. Bruce Warrington, National Measurement Institute</i>	
<b>Application of Miniaturized Atomic Clocks in Kinematic GNSS Single Point Positioning .....</b>	<b>40</b>
<i>Thomas Krawinkel, Leibniz Universität Hannover; Steffen Schön, Leibniz Universität Hannover; Andreas Bauch, Physikalisch-Technische Bundesanstalt</i>	
<b>A Modification of Z12T Metronome Time Transfer System .....</b>	<b>41</b>
<i>Shinn Yan Lin, National Time and Frequency Standard Laboratory; Yi Jiun Huang, National Time and Frequency Standard Laboratory</i>	
<b>Time Link Calibration Using Two Mobile TWSTFT Stations for T2K Experiment .....</b>	<b>42</b>
<i>M. Fujieda, National Institute of Information and Communications Technology; T. Gotoh, National Institute of Information and Communications Technology; R. Ichikawa, National Institute of Information and Communications Technology; R. Tabuchi, National Institute of Information and Communications Technology; M.E. Aida, National Institute of Information and Communications Technology; H.G. Berns, University of California, Davis / University of Washington; C. Bronner, Kyoto University; K. Connolly, University of Washington; P. Destefano, University of Washington; N. Dreyer, University of Washington; M. Dziewiecki, Warsaw University of Technology; C. Greenley, Louisiana State University; R. Kurjata, Warsaw University of Technology; Y. Hayato, University of Tokyo; T. Kutter, Louisiana State University; T. Maruyama, IPNS, KEK; C. Metelko, University of Liverpool; O. Perevozchikov, Louisiana State University; E. Reinherz-Aronis, Colorado State University; K. Sakashita, IPNS, KEK; K. Suzuki, Kyoto University; W. Toki, Colorado State University; A. Weber, University of Liverpool; J. Wilkes, University of Washington; M. Ziembicki, Warsaw University of Technology</i>	
<b>Stability of the BIPM GNSS Travelling Calibrator .....</b>	<b>43</b>
<i>Z. Jiang, Bureau International des Poids et Mesures; L. Tisserand, Bureau International des Poids et Mesures</i>	
<b>The Research on Carrier Phase Time Transfer of BeiDou Geo Navigation Satellite .....</b>	<b>44</b>
<i>Wei Guang, National Time Service Center, Chinese Academy of Sciences; Wei Li, National Time Service Center, Chinese Academy of Sciences; Haibo Yuan, National Time Service Center, Chinese Academy of Sciences</i>	

<b>Evaluation of Environmental Effects on GPS Signals by Submitting Rinex Files to Online PPP Software .....</b>	<b>45</b>
<i>Luiz Vicente Gomes Tarelho, Instituto Nacional de Metrologia, Qualidade e Tecnologia; Guilherme de Andrade Garcia, Instituto Nacional de Metrologia, Qualidade e Tecnologia; Antonio Carlos Baratto, Instituto Nacional de Metrologia, Qualidade e Tecnologia; Elizabeth Vilcañaua Raymundo, National Observatory; Selma Junqueira, National Observatory; Rodolfo Saboia Lima de Souza, Instituto Nacional de Metrologia, Qualidade e Tecnologia</i>	
<b>Analysis of the Code / Phase Behavior in the GPS-iPPP Time Transfer .....</b>	<b>46</b>
<i>Ph. Guillemot, Centre National d'Etudes Spatiales</i>	
<b>SATRE Modem Performance Characterization for 20 Mcps TWSTFT Optical Clock Comparisons .....</b>	<b>47</b>
<i>Franziska Riedel, Physikalisch-Technische Bundesanstalt; Erik Benkler, Physikalisch-Technische Bundesanstalt; Dirk Piester, Physikalisch-Technische Bundesanstalt</i>	
<b>Two-Way Satellite Time and Frequency Transfer: Overview, Recent Developments and Application .....</b>	<b>48</b>
<i>Wenjun Wu, National Time Service Center, Chinese Academy of Sciences; Shaowu Dong, National Time Service Center, Chinese Academy of Sciences; Huanxin Li, National Time Service Center, Chinese Academy of Sciences; Hong Zhang, National Time Service Center, Chinese Academy of Sciences</i>	
<b>Common Estimation of the Frequency Bias of DORIS Jason2's Oscillator, with T2L2 and Diode Onboard Instruments .....</b>	<b>49</b>
<i>N. Martin, Centre National de la Recherche Scientifique; P. Exertier, Centre National de la Recherche Scientifique; C. Jayles, Centre National d'Etudes Spatiales; A. Auriol, Centre National d'Etudes Spatiales; P. Guillemot, Centre National d'Etudes Spatiales</i>	
<b>Nonstationarities in Space Clocks: Investigations on Experimental Data .....</b>	<b>50</b>
<i>A. Cernigliaro, aizoOn; G. Fantino, Istituto Nazionale di Ricerca Metrologica; I. Sesia, Istituto Nazionale di Ricerca Metrologica; L. Galleani, Politecnico di Torino; P. Tavella, Istituto Nazionale di Ricerca Metrologica</i>	
<b>Investigation of Space Passive Hydrogen Maser Atomic Beam Formation System Life-Time .....</b>	<b>51</b>
<i>K. Pavlenko, Vremya-CH; A. Pavlenko, Vremya-CH</i>	
<b>The Time Service Performance Evaluation of GNSS .....</b>	<b>52</b>
<i>Wei Li, National Time Service Center, Chinese Academy of Sciences; Yongliang Xu, National Time Service Center, Chinese Academy of Sciences; Haibo Yuan, National Time Service Center, Chinese Academy of Sciences</i>	
<b>Timing Performance of GNSS on-Board Clocks .....</b>	<b>53</b>
<i>Jérôme Delporte, Centre National d'Etudes Spatiales; Cyrille Boulanger, Centre National d'Etudes Spatiales; Flavien Mercier, Centre National d'Etudes Spatiales</i>	
<b>Sensors &amp; Transducers</b>	
Session Type: Poster	
Session Code: A3P-F	
Location: R.O.14	
Date & Time: Tuesday, June 24, 2014 (14:00 - 15:40)	
Chair: Victor Plessky, GVR Trade SA	
<b>Microwave Sensors of the Fast Process's in Thermal Power Engines (TPE) .....</b>	<b>54</b>
<i>Ekaterina Safonova, Kazan State Technical University; Fanis Mirsaitov, Kazan State Technical University</i>	

<b>Microwave Autodyne Vibrosensor in Aeroengine Diagnostics</b> .....	55
<i>Fanis Mirsaitov, Kazan State Technical University; Ekaterina Safonova, Kazan State Technical University; Victor Boloznnev, Kazan State Technical University</i>	
<b>Digital-Locking Optically Pumped Cesium Magnetometer</b> .....	56
<i>Rongye Shi, Peking University; Chang Liu, Peking University; Sheng Zhou, Peking University; Yanhui Wang, Peking University</i>	
<b>Passive Wireless SAW - MEMS Microphone</b> .....	57
<i>Victor Plessky, GVR Trade SA; Kirill Stroganov, JSC Avangard; Vladimir Pashchenko, JSC Avangard; Vladimir Kalinin, JSC Avangard</i>	
<b>Resonator Defects Identification Technique with Using a Vector Network Analyzer</b> .....	58
<i>Alexey Shimko, JSC Avangard; Kirill Stroganov, JSC Avangard; Vladimir Kalinin, JSC Avangard</i>	
<b>6GHz SAW-Tags and Sensors</b> .....	59
<i>Victor Plessky, GVR Trade SA; Zachary J. Davis, Danish Technological Institute; Sergey Suchkov, Saratov State University; Marc Lamothe, FEMTO-ST Institute</i>	
<b>SAW Temperature Sensors for Electric Power Transmission Lines</b> .....	60
<i>Vladimir Kalinin, Avangard Ltd.; Kirill Stroganov, Avangard Ltd.; Boris Ljulin, Avangard Ltd.; Victor Plessky, GVR Trade SA</i>	
<b>ZnO Nanorods on the 128LN Substrate for Surface Acoustic Wave Sensors</b> .....	61
<i>Oleksandr Bogdan, National Technical University of Ukraine; Anatolii Orlov, National Technical University of Ukraine; Genadzi Pashkevich, National Technical University of Ukraine; Veronika Ulianova, National Technical University of Ukraine</i>	
<b>High Throughput Fabrication of SHF SAW Components Based on Jet and Flash Imprint Lithography</b> .....	62
<i>Z.J. Davis, Danish Technological Institute; C.M. Pedersen, Danish Technological Institute; M. Lamothe, FEMTO-ST Institute; V. Plessky, GVR Trade SA; T.H. Bro, NIL Technology; B. Bilenberg, NIL Technology</i>	
<b>Simulation and Experimental Studies of Gallium Arsenide Bulk Acoustic Wave Transducer Under Lateral Field Excitation</b> .....	63
<i>Vivien Lacour, FEMTO-ST Institute / University of Sherbrooke; Alex Bienaime, FEMTO-ST Institute; Jean- François Manceau, FEMTO-ST Institute; Jan Dubowski, University of Sherbrooke; Thérèse Leblois, FEMTO-ST Institute</i>	
<b>Highly Displacement Sensitive Higher Order Modes in a Cylindrical Reentrant-Ring Cavity Resonator</b> .....	64
<i>Y. Fan, University of Western Australia; Z. Zhang, University of Science and Technology of China; N.C. Carvalho, University of Western Australia; J.-M. Le Floch, University of Western Australia; Q. Shan, National University of Defense Technology; Michael E. Tobar, University of Western Australia</i>	
<b>State Selection in <math>^{87}\text{Rb}</math> Beam by Laser Optical Pumping</b> .....	65
<i>A.I. Magunov, A.M. Prokhorov General Physics Institute of Russian Academy of Sciences; Vitaly Palchikov, National Research Institute for Physical-Technical and Radiotechnical Measurements</i>	
<b>Coherent Population Trapping Resonance on Zeeman Sublevels for Quantum Magnetometer</b> .....	66
<i>I.M. Sokolov, Saint Petersburg State Polytechnical University; A.N. Litvinov, Saint Petersburg State Polytechnical University</i>	

# Microwave Frequency Standards I

Session Type: Poster

Session Code: A3P-G

Location: R.S.38

Date & Time: Tuesday, June 24, 2014 (14:00 - 15:40)

Chair: Salvatore Micalizio, INRIM

## **Exploring a New Scheme for Ramsey-CPT Atomic Clock ..... 67**

*Jing Yang, Wuhan Institute of Physics and Mathematics / Chinese Academy of Sciences; Yuan Tian, Huazhong University of Science and Technology; Bozhong Tan, Huazhong University of Science and Technology; Peter Yun, Wuhan Institute of Physics and Mathematics / Chinese Academy of Sciences; Sihong Gu, Wuhan Institute of Physics and Mathematics / Chinese Academy of Sciences / Huazhong University of Science and Technology*

## **The Light and Orientation End Resonance Frequency Shifts in Alkaline Atoms Vapors ..... 68**

*A.A. Baranov, Saint Petersburg State Polytechnical University; S.V. Ermak, Saint Petersburg State Polytechnical University; V.V. Semenov, Saint Petersburg State Polytechnical University*

## **Miniature Optical Fiber Cavity for a Trapped Atom Clock ..... 69**

*Ramon Szmuk, Observatoire de Paris; Konstantin Ott, Observatoire de Paris / École Normale Supérieure; Ralf Kohlhaas, Observatoire de Paris; Jakob Reichel, École Normale Supérieure; Peter Rosenbusch, Observatoire de Paris*

## **On the Single-State Selection for H-Maser and its Signal Application for Fountain Atomic Standard ..... 70**

*M.S. Aleynikov, National Research Institute for Physical-Technical and Radiotechnical Measurements; A.I. Boyko, National Research Institute for Physical-Technical and Radiotechnical Measurements*

## **Drift Compensation of Hydrogen Frequency Standard Output Signal ..... 71**

*V.I. Vasilyev, Institute of Electronic Measurements KVARZ; V.V. Gavrilov, Institute of Electronic Measurements KVARZ; A.G. Gorelov, Institute of Electronic Measurements KVARZ; S.A. Kozlov, Institute of Electronic Measurements KVARZ*

## **New Method for Observing Ultra-Narrow and High-Contrast Electromagnetically-Induced-Absorption Resonances ..... 72**

*Denis Brazhnikov, Institute of Laser Physics SB RAS / Novosibirsk State University; Alexey Taichenachev, Institute of Laser Physics SB RAS / Novosibirsk State University; Anatoly Tumaikin, Institute of Laser Physics SB RAS; Valeriy Yudin, Institute of Laser Physics SB RAS, Novosibirsk State Technical University*

## **About Long Term Stability of the Self-Generating Magnetometer in Weak Magnetic Field ..... 73**

*A.A. Baranov, Saint Petersburg State Polytechnical University; S.V. Ermak, Saint Petersburg State Polytechnical University; R.V. Smolin, Saint Petersburg State Polytechnical University; V.V. Semenov, Saint Petersburg State Polytechnical University*

## **An Optically Detected Cesium Beam Frequency Standard with Magnetic State Selection ..... 74**

*Chang Liu, Peking University; Rongye Shi, Peking University; Yanhui Wang, Peking University; Shuqin Liu, Peking University; Taiqian Dong, Peking University*

## **Aging Study on a Micro-Fabricated Cs Buffer-Gas Cell for Atomic Clock Applications ..... 75**

*Salman Abdullah, Université de Neuchâtel; Christoph Affolderbach, Université de Neuchâtel; Florian Gruet, Université de Neuchâtel; Yves Pétremand, Centre Suisse d'Electronique et Microtechnique SA; Gaetano Mileti, Université de Neuchâtel*

<b>Demonstration of Optical Pumping Using a Micro-Fabricated Rb Dielectric Barrier Discharge (DBD) Lamp .....</b>	<b>76</b>
<i>Songbai Kang, Université de Neuchâtel / Wuhan Institute of Physics and Mathematics of Chinese Academy of Sciences; Vinu Venkatraman, Université de Neuchâtel; Christoph Affolderbach, Université de Neuchâtel; Herbert Shea, École Polytechnique Fédérale de Lausanne; Gaetano Mileti, Université de Neuchâtel</i>	

<b>Progress in the Evaluation of a Cs Cell CPT Clock Using Push-Pull Optical Pumping .....</b>	<b>77</b>
<i>M. Abdel Hafiz, FEMTO-ST Institute; R. Boudot, FEMTO-ST Institute</i>	

## **Optical Frequency Combs & Standards**

Session Type: Poster

Session Code: A3P-H

Location: R.S.38

Date & Time: Tuesday, June 24, 2014 (14:00 - 15:40)

Chair: Rodolphe Le Targat, SYRTE

<b>Amplitude-to-Phase Conversion in Fiber Laser Frequency Combs .....</b>	<b>78</b>
<i>Christian Grebing, Physikalisch-Technische Bundesanstalt; Uwe Sterr, Physikalisch-Technische Bundesanstalt; Harald Schnatz, Physikalisch-Technische Bundesanstalt; Harald R. Telle, Physikalisch-Technische Bundesanstalt</i>	

<b>Development of an Optical Carrier Hybrid Transfer System .....</b>	<b>79</b>
<i>Ken-Ichi Watabe, National Institute of Advanced Industrial Science and Technology; Masato Wada, National Institute of Advanced Industrial Science and Technology; Sho Okubo, National Institute of Advanced Industrial Science and Technology; Tomonari Suzuyama, National Institute of Advanced Industrial Science and Technology; Feng-Lei Hong, National Institute of Advanced Industrial Science and Technology; Masaki Amemiya, National Institute of Advanced Industrial Science and Technology</i>	

<b>Progress Towards a Fibre-Based Frequency Reference for Atmospheric CO<sub>2</sub> Measurements .....</b>	<b>80</b>
<i>Philip G. Westergaard, Danish Fundamental Metrology; Marco Triches, Danish Fundamental Metrology; Mattia Michieletto, NKT Photonics; Jens K. Lyngsø, NKT Photonics; Jan W. Thomsen, Niels Bohr Institute; Jan Hald, Danish Fundamental Metrology</i>	

<b>Evaluation of an Ultra-Stable Laser System Based on a Linewidth Transfer Method for Optical Clocks .....</b>	<b>81</b>
<i>K. Hosaka, National Institute of Advanced Industrial Science and Technology; S. Okubo, National Institute of Advanced Industrial Science and Technology; H. Inaba, National Institute of Advanced Industrial Science and Technology; D. Akamatsu, National Institute of Advanced Industrial Science and Technology; M. Yasuda, National Institute of Advanced Industrial Science and Technology; A. Onae, National Institute of Advanced Industrial Science and Technology; F.-L. Hong, National Institute of Advanced Industrial Science and Technology</i>	

<b>New Locking Schemes for a Carrier-Envelope Offset Frequency .....</b>	<b>82</b>
<i>Atsushi Onae, National Institute of Advanced Industrial Science and Technology; Sho Okubo, National Institute of Advanced Industrial Science and Technology; Kazumoto Hosaka, National Institute of Advanced Industrial Science and Technology; Hideyuki Sera, National Metrology Institute of Japan / Keio University; Hajime Inaba, National Institute of Advanced Industrial Science and Technology; Feng-Lei Hong, National Institute of Advanced Industrial Science and Technology</i>	

<b>Phase-Locking of a 3THz Quantum Cascade Laser to an Optically Generated Terahertz Reference .....</b>	<b>83</b>
<i>Motohiro Kumagai, National Institute of Information and Communications Technology; Yoshihisa Irimajiri, National Institute of Information and Communications Technology; Isao Morohashi, National Institute of Information and Communications Technology; Akira Kawakami, National Institute of Information and Communications Technology; Shigeo Nagano, National Institute of Information and Communications Technology; Hiroyuki Ito, National Institute of Information and Communications Technology; Yuko Hanado, National Institute of Information and Communications Technology; Iwao Hosako, National Institute of Information and Communications Technology</i>	
<b>A Narrow-Linewidth Frequency-Tunable cw Laser from 700 nm to 1000 nm .....</b>	<b>84</b>
<i>Y.Y. Jiang, East China Normal University; H.Q. Chen, East China Normal University; Z.Y. Bi, East China Normal University; L.S. Ma, East China Normal University</i>	
<b>Compact All-Fibre Wavelength Standards Based on Micro-Structured Fibres .....</b>	<b>85</b>
<i>Natascia Castagna, Federal Institute of Metrology METAS; Jacques Morel, Federal Institute of Metrology METAS</i>	
<b>Characterization of a SESAM Mode-Locked Erbium Laser Frequency Comb with an Integrated Electro-Optic Modulator .....</b>	<b>86</b>
<i>Sebastian Schweyer, Technische Universität München; Bastian Eder, Technische Universität München; Philipp Putzer, Kayser-Threde GmbH; Reinhard Kienberger, Technische Universität München</i>	
<b>High-Bandwidth Intensity and Phase Noise Stabilization of an Yb:fiber Femtosecond Frequency Comb .....</b>	<b>87</b>
<i>Tobias P. Lamour, Max-Planck-Institut für Quantenoptik; Dylan C. Yost, Max-Planck-Institut für Quantenoptik; Theodor W. Hänsch, Max-Planck-Institut für Quantenoptik / Ludwig-Maximilians-Universität München; Thomas Udem, Max-Planck-Institut für Quantenoptik</i>	
<b>A Microwave-Optical Local Oscillator for Future Applications in Space .....</b>	<b>88</b>
<i>I. Ernsting, Heinrich-Heine Universität Düsseldorf; Q.-F. Chen, Heinrich-Heine Universität Düsseldorf; M. Cardace, Heinrich-Heine Universität Düsseldorf; A. Nevsky, Heinrich-Heine-Universität Düsseldorf; S. Schiller, Heinrich-Heine Universität Düsseldorf; U. Sterr, Physikalisch-Technische Bundesanstalt; Th. Legero, Physikalisch-Technische Bundesanstalt; B. Lipphardt, Physikalisch-Technische Bundesanstalt; S. Häfner, Physikalisch-Technische Bundesanstalt; H. Schnatz, Physikalisch-Technische Bundesanstalt</i>	
<b>Optical Clock Based on a Fully Stabilized Microcomb .....</b>	<b>89</b>
<i>K. Beha, National Institute of Standards and Technology; S.B. Papp, National Institute of Standards and Technology; P. Del'Haye, National Institute of Standards and Technology; F. Quinlan, National Institute of Standards and Technology; H. Lee, California Institute of Technology; K.J. Vahala, California Institute of Technology; S.A. Diddams, National Institute of Standards and Technology</i>	
<b>Generalized Representation of Noise in Optical Frequency Combs by Spectral Correlation Analysis .....</b>	<b>90</b>
<i>Roman Schmeissner, Université Pierre et Marie Curie; Jonathan Roslund, Université Pierre et Marie Curie; Claude Fabre, Université Pierre et Marie Curie; Nicolas Treps, Université Pierre et Marie Curie</i>	
<b>Compact Frequency Combs from Ytterbium-Doped Diode-Pumped Solid-State Lasers .....</b>	<b>91</b>
<i>Alexander Klenner, ETH Zurich; Stéphane Schilt, Université de Neuchâtel; Thomas Südmeyer, Université de Neuchâtel; Ursula Keller, ETH Zurich</i>	

<b>Digital System for Keeping Optical Frequency Comb in Long-Term Stable Operation .....</b>	<b>92</b>
<i>Martin Čížek, Institute of Scientific Instruments of the ASCR, v.v.i.; Radek Šmíd, Institute of Scientific Instruments of the ASCR, v.v.i.; Václav Hucl, Institute of Scientific Instruments of the ASCR, v.v.i.; Josef Lazar, Institute of Scientific Instruments of the ASCR, v.v.i.; Ondřej Číp, Institute of Scientific Instruments of the ASCR, v.v.i.</i>	
<b>Photodetection of Ultrashort Optical Pulses for Low Phase Noise Microwave Generation .....</b>	<b>93</b>
<i>Franklyn Quinlan, National Institute of Standards and Technology; Tara M. Fortier, National Institute of Standards and Technology; Fred N. Baynes, National Institute of Standards and Technology; Antoine Rolland, National Institute of Standards and Technology; Andreas Beling, University of Virginia; Qiugui Zho, University of Virginia; Wenlu Sun, University of Virginia; Joe C. Campbell, University of Virginia; Scott A. Diddams, National Institute of Standards and Technology</i>	
<b>Rb-Based Stabilized Laser System as Frequency Reference for CO<sub>2</sub> Monitoring .....</b>	<b>94</b>
<i>Renaud Matthey, Université de Neuchâtel; Florian Gruet, Université de Neuchâtel; Stéphane Schilt, Université de Neuchâtel; Gaetano Mileti, Université de Neuchâtel</i>	
<b>Sub-100 Attosecond Timing Jitter from Low-Noise Passively Mode-Locked Solid-State Laser .....</b>	<b>95</b>
<i>Erwin Portuondo-Campa, Centre Suisse d'Electronique et Microtechnique SA; R. Paschotta, RP Photonics Consulting GmbH; Steve Lecomte, Centre Suisse d'Electronique et Microtechnique SA</i>	
<b>Fluoride Output Coupler for Cavity HHG Toward VUV Direct State-Detection of Ion Clocks .....</b>	<b>96</b>
<i>Kentaro Wakui, National Institute of Information and Communications Technology; Kazuhiro Hayasaka, National Institute of Information and Communications Technology; Tetsuya Ido, National Institute of Information and Communications Technology</i>	
<b>Polarization Maintaining Pulse Interleaving for Low Noise Photonic Microwave Generation .....</b>	<b>97</b>
<i>Gilles Buchs, Centre Suisse d'Electronique et Microtechnique SA; Stefan Kundermann, Centre Suisse d'Electronique et Microtechnique SA; Erwin Portuondo-Campa, Centre Suisse d'Electronique et Microtechnique SA; Steve Lecomte, Centre Suisse d'Electronique et Microtechnique SA</i>	
<b>Direct Measurement of Correlations of Amplitude and Phase Noise in Optical Frequency Combs .....</b>	<b>98</b>
<i>Roman Schmeissner, Université Pierre et Marie Curie; Valerian Thiel, Université Pierre et Marie Curie; Claude Fabre, Université Pierre et Marie Curie; Nicolas Treps, Université Pierre et Marie Curie</i>	

## Student Poster Finalists

Session Type: Poster

Session Code: A3P-J

Location: Cafeteria Entrance

Date & Time: Tuesday, June 24, 2014 (14:00 - 15:40)

Chair: Gaetano Mileti, University of Neuchatel

<b>Quartz-Based Vibrating MEMS on Structured Silicon Using Wafer Bonding Technology .....</b>	<b>99</b>
<i>Sebastien Grousset, CEA-Leti; Rachid Taïbi, Office National d'Etudes et Recherches Aéronautiques; Lamine Benaissa, CEA-Leti; Emmanuel Augendre, CEA-Leti; Thomas Signamarcheix, CEA-Leti; Olivier Le Traon, Office National d'Etudes et Recherches Aéronautiques; Sylvain Ballandras, freq n sys SAS</i>	
<b>Assessment of the Acoustic Shear Velocity in SiO<sub>2</sub> and Mo for Acoustic Reflectors .....</b>	<b>100</b>
<i>M. DeMiguel-Ramos, Universidad Politécnica de Madrid; T. Mirea, Universidad Politécnica de Madrid; J. Olivares, Universidad Politécnica de Madrid; M. Clement, Universidad Politécnica de Madrid; J. Sangrador, Universidad Politécnica de Madrid; E. Iborra, Universidad Politécnica de Madrid</i>	

<b>Effects of a Plasma Etching Process on a Longitudinally Coupled Resonator Filter</b> .....	101
<i>L. Braun, AR Electronique SAS; E. Courjon, <math>frec n sys</math> SAS; O. Franquet, AR Electronique SAS; W. Daniau, FEMTO-ST Institute; T. Baron, FEMTO-ST Institute; S. Ballandras, <math>frec n sys</math> SAS</i>	
<b>Active Electronic Cancellation of Nonlinearity in a High-Q Longitudinal-Mode Silicon Resonator by Current Biasing</b> .....	102
<i>Haoshen Zhu, City University of Hong Kong; Cheng Tu, City University of Hong Kong; Libor Rufer, TIMA Laboratory; Joshua Lee, City University of Hong Kong</i>	
<b>Photodiode Nonlinear Modeling and its Impact on Optical Links Phase Noise</b> .....	103
<i>Z. Abdallah, LAAS-CNRS / Centre National d'Etudes Spatiales; A. Rumeau, LAAS-CNRS; J. Maxin, LAAS-CNRS / Thales Research and Technology; A. Fernandez, LAAS-CNRS; G. Pillet, Thales Research and Technology; L. Morvan, Thales Research and Technology; O. Llopis, LAAS-CNRS; G. Cibiel, Centre National d'Etudes Spatiales</i>	
<b>Compact Low Phase Noise 3.8GHz Oscillator</b> .....	104
<i>Pratik D. Deshpande, University of York; Jeremy Everard, University of York</i>	
<b>High-Purity Microwave Signal from a Dual-Frequency Semiconductor Laser for CPT Atomic Clocks</b> .....	105
<i>P. Dumont, Laboratoire Charles Fabry, Institut d'Optique; J.-M. Danet, Observatoire de Paris; F.A. Camargo, Laboratoire Charles Fabry, Institut d'Optique; D. Holleville, Observatoire de Paris; S. Guerandel, Observatoire de Paris; G. Baili, Thales Research and Technology; L. Morvan, Thales Research and Technology; G. Pillet, Thales Research and Technology; D. Dolfi, Thales Research and Technology; I. Gozhyk, Laboratoire Charles Fabry, Institut d'Optique / Laboratoire de Photoniques et de Nanostructures; G. Beaudoin, Laboratoire de Photoniques et de Nanostructures; I. Sagnes, Laboratoire de Photoniques et de Nanostructures; P. Georges, Laboratoire Charles Fabry, Institut d'Optique; G. Lucas-Leclin, Laboratoire Charles Fabry, Institut d'Optique</i>	
<b>Experimental and Numerical Study of the Microwave Field Distribution in a Compact Magnetron-Type Microwave Cavity</b> .....	106
<i>Anton Ivanov, École Polytechnique Fédérale de Lausanne; Thejesh Bandi, Université de Neuchâtel; Guan-Xiang Du, Universität Basel; Andrew Horsley, Universität Basel; Christoph Affolderbach, Université de Neuchâtel; Anja K. Skriverovik, École Polytechnique Fédérale de Lausanne; Philipp Treutlein, Universität Basel; Gaetano Mileti, Université de Neuchâtel</i>	
<b>Mitigation of Frequency Shifts in a Cold-Atom Coherent Population Trapping Clock</b> .....	107
<i>E. Blanshan, National Institute of Standards and Technology; F.-X. Esnault, National Institute of Standards and Technology; J. Kitching, National Institute of Standards and Technology; E.A. Donley, National Institute of Standards and Technology</i>	
<b>Imaging Rb-Wall Interactions and Microwave Fields in Vapor Cells</b> .....	108
<i>Andrew Horsley, Universität Basel; Guan-Xiang Du, Universität Basel; Matthieu Pellaton, Université de Neuchâtel; Christoph Affolderbach, Université de Neuchâtel; Gaetano Mileti, Université de Neuchâtel; Philipp Treutlein, Universität Basel</i>	
<b>Miniature Optical Fiber Cavity for a Trapped Atom Clock</b> .....	109
<i>Ramon Szmuk, Observatoire de Paris; Konstantin Ott, Observatoire de Paris / École Normale Supérieure; Ralf Kohlhaas, Observatoire de Paris; Jakob Reichel, École Normale Supérieure; Peter Rosenbusch, Observatoire de Paris</i>	
<b>Electromagnetic Induction Readout Silicon-on-Insulator MEMS Resonant Magnetometer</b> .....	110
<i>Weiguan Zhang, City University of Hong Kong; Joshua E.-Y. Lee, City University of Hong Kong</i>	

<b>Studying Particulate Adsorption by Drying Droplets on a Microfabricated Electro-Acoustic Resonator .....</b>	<b>111</b>
<i>Abhinav Prasad, University of Cambridge; Arthur T. Zielinski, University of Cambridge; Markus Kalberer, University of Cambridge; Roderic L. Jones, University of Cambridge; Ashwin A. Seshia, University of Cambridge</i>	
<b>Time Transfer Over Delay-Stabilized Fibre Links Using an Optical Pulse Train .....</b>	<b>112</b>
<i>Maurice Lessing, National Physical Laboratory / University of St. Andrews; Giuseppe Marra, National Physical Laboratory</i>	
<b>A Detection Algorithm of Atomic Clock Frequency Jumps with the Prediction Wiener Filter .....</b>	<b>113</b>
<i>X.M. Huang, National University of Defense Technology</i>	
<b>In-Line Extraction of an Ultra-Stable Frequency Signal Over an Optical Fiber Link .....</b>	<b>114</b>
<i>A. Bercy, Université Paris 13 / Observatoire de Paris; S. Guellati-Khelifa, Université Pierre et Marie Curie; F. Stefani, Université Paris 13 / Observatoire de Paris; G. Santarelli, Université de Bordeaux 1; C. Chardonnet, Université Paris 13; P.-E. Pottie, Observatoire de Paris; O. Lopez, Université Paris 13; A. Amy-Klein, Université Paris 13</i>	
<b>A Method of Satellite Autonomous on-Board Clock Monitoring Using High-Stability Crystal Oscillator .....</b>	<b>115</b>
<i>Gangqiang Guan, National University of Defense Technology</i>	
<b>On the Prospects of Building Optical Atomic Clocks Using Er I or Er III .....</b>	<b>116</b>
<i>Alexander Kozlov, University of New South Wales; Vladimir Dzuba, University of New South Wales; Victor Flambaum, University of New South Wales</i>	
<b>Laser Stabilization System for Space Applications Based on Hydroxide-Catalysis Bonding .....</b>	<b>117</b>
<i>Yingxin Luo, Huazhong University of Science and Technology; Hongyin Li, Huazhong University of Science and Technology; Huizong Duan, Huazhong University of Science and Technology; Hsien-Chi Yeh, Huazhong University of Science and Technology</i>	
<b>An Ultra-Low Frequency Noise Laser Based on a 48 cm Long ULE Cavity for a Sr Lattice Clock .....</b>	<b>118</b>
<i>S. Häfner, Physikalisch-Technische Bundesanstalt; S. Vogt, Physikalisch-Technische Bundesanstalt; A. Al-Masoudi, Physikalisch-Technische Bundesanstalt; St. Falke, Physikalisch-Technische Bundesanstalt; C. Grebing, Physikalisch-Technische Bundesanstalt; M. Merimaa, Centre for Metrology and Accreditation; Th. Legero, Physikalisch-Technische Bundesanstalt; Ch. Lisdat, Physikalisch-Technische Bundesanstalt; Uwe Sterr, Physikalisch-Technische Bundesanstalt</i>	
<b>Thin Disk Lasers Enable High-Power Frequency Combs .....</b>	<b>119</b>
<i>Florian Emaury, ETH Zurich; Alexander Klenner, ETH Zurich; Andreas Diebold, ETH Zurich; Cinia Schriber, ETH Zurich; Clara J. Saraceno, ETH Zurich / Université de Neuchâtel; Stéphane Schilt, Université de Neuchâtel; Ursula Keller, ETH Zurich; Thomas Südmeyer, Université de Neuchâtel</i>	

## Laser Stabilization

Session Type: Lecture

Session Code: A4L-A

Location: Main Aula

Date & Time: Tuesday, June 24, 2014 (16:00 - 17:40)

Chair: Jacques Morel, METAS

### Quantum Cascade Laser Stabilization at Hz-Level by Use of a Frequency Comb and an Optical Link ..... 120

*B. Argence, Université Paris 13; B. Chanteau, Université Paris 13; O. Lopez, Université Paris 13; D. Nicolodi, Observatoire de Paris; M. Abgrall, Observatoire de Paris; C. Chardonnet, Université Paris 13; C. Daussy, Université Paris 13; B. Darquié, Université Paris 13; Y. Le Coq, Observatoire de Paris; A. Amy-Klein, Université Paris 13*

### Hybrid Fibre-Atomic Optical Frequency Standard ..... 121

*C. Perrella, University of Adelaide; J. Anstie, University of Adelaide / University of Western Australia; P. Light, University of Adelaide / University of Western Australia; F. Benabid, University of Limoges; A.G. White, University of Queensland / EQuS / CQC2T; Andre Luiten, University of Adelaide*

### Investigations and Reduction of Frequency Noise in Mid-Infrared Quantum Cascade Lasers ..... 122

*Stéphane Schilt, Université de Neuchâtel; Lionel Tombez, Université de Neuchâtel; Stéphane Blaser, Alpes Lasers SA; Romain Terazzi, Alpes Lasers SA; Camille Tardy, Alpes Lasers SA; Richard Maulini, Alpes Lasers SA; Alfredo Bismuto, Alpes Lasers SA; Tobias Gresch, Alpes Lasers SA; Michel Rochat, Alpes Lasers SA; Antoine Muller, Alpes Lasers SA; Thomas Südmeyer, Université de Neuchâtel*

### Investigation of a High-Finesse Silicon Optical Resonator at Cryogenic Temperatures ..... 123

*E. Wiens, Heinrich-Heine Universität Düsseldorf; Q.-F. Chen, Heinrich-Heine Universität Düsseldorf; I. Ernsting, Heinrich-Heine Universität Düsseldorf; H. Luckmann, Heinrich-Heine Universität Düsseldorf; A. Nevsky, Heinrich-Heine-Universität Düsseldorf; S. Schiller, Heinrich-Heine Universität Düsseldorf*

### Laser Frequency Reference for 1064 nm Based on Molecular Iodine – Towards Space Qualification ..... 124

*Klaus Döringshoff, Humboldt-Universität zu Berlin; Thilo Schuldt, DLR Institute for Space Systems; Evgeny V. Kovalchuk, Humboldt-Universität zu Berlin; Julia Pahl, Humboldt-Universität zu Berlin; Johannes Stühler, Hochschule Konstanz für Technik, Wirtschaft und Gestaltung; Matthias Franz, Hochschule Konstanz für Technik, Wirtschaft und Gestaltung; Ulrich Johann, Astrium GmbH; Claus Braxmaier, DLR Institute for Space Systems / Universität Bremen; Achim Peters, Humboldt-Universität zu Berlin*

## Time Transfer I

Session Type: Lecture

Session Code: A4L-B

Location: Room 2 - R.N.02

Date & Time: Tuesday, June 24, 2014 (16:00 - 17:40)

Chair: Wolfgang Schaeffer, Timetech

### A Sub-Ns Comparison Between GPS Common View and T2L2 ..... 125

*E. Samain, Géoazur, Université de Nice Sophia-Antipolis; M. Laas-Bourez, Géoazur, Université de Nice Sophia-Antipolis; C. Courde, Géoazur, Université de Nice Sophia-Antipolis; P. Exertier, Géoazur, Université de Nice Sophia-Antipolis; N. Martin, Géoazur, Université de Nice Sophia-Antipolis; J.-M. Torre, Géoazur, Université de Nice Sophia-Antipolis; Ph. Guillemot, Centre National d'Etudes Spatiales; S. Léon, Centre National d'Etudes Spatiales; D. Rovera, Observatoire de Paris; M. Abgrall, Observatoire de Paris; P. Uhrich, Observatoire de Paris; R. Sherwood, NERC Space Geodesy Facility; G. Appleby, NERC Space Geodesy Facility; P. Fridelance, Phusipus Integration*

<b>Calibration of System Delays in the European Laser Timing to 10 ps Accuracy .....</b>	<b>126</b>
<i>Ivan Prochazka, Czech Technical University in Prague; Jan Kodet, Technische Universität München; Josef Blazej, Czech Technical University in Prague; K. Ulrich Schreiber, Technische Universität München</i>	
<b>Practical Evaluation of Relativistic Effects in Two-Way Satellite Time and Frequency Transfer .....</b>	<b>127</b>
<i>S.L. Shemar, National Physical Laboratory; P. Delva, Observatoire de Paris; A. Lamb, National Physical Laboratory</i>	
<b>Time Transfer Capabilities in a DTM Transmission System .....</b>	<b>128</b>
<i>Magnus Danielson, Net Insight AB</i>	
<b>Towards Accurate Optical Fibre Time Transfer in UTC .....</b>	<b>129</b>
<i>Z. Jiang, Bureau International des Poids et Mesures; A. Czubla, Główny Urząd Miar, Central Office of Measures; J. Nawrocki, Astrogeodynamic Observatory of Space Research Center; W. Lewandowski, Bureau International des Poids et Mesures; F. Arias, Bureau International des Poids et Mesures</i>	
 <b>Acoustic Materials</b>	
Session Type: Lecture	
Session Code: A4L-C	
Location: Room 3 - R.E.48	
Date & Time: Tuesday, June 24, 2014 (16:00 - 17:40)	
Chair: Paul Muralt, EPFL	
<b>INVITED: Acoustic Cloaks for Airborne Sound .....</b>	<b>130</b>
<i>José Sánchez-Dehesa, Universitat Politècnica de València</i>	
<b>INVITED: <math>\alpha</math>-Quartz Type <math>M^{\text{III}}X^{\text{V}}O_4</math> (M= Al, Ga and X= P, As) Piezoelectric Single Crystals – A Review .....</b>	<b>131</b>
<i>O. Cambon, Université Montpellier 2</i>	
<b>A Comparative Study of LGS Coefficient Set Accuracy Assessed by Experiments .....</b>	<b>133</b>
<i>Bruno François, FEMTO-ST Institute; Sergey Sakharov, FOMOS-Materials; Zachary Davis, Danish Technological Institute; Denny Richter, TDK EPCOS; Gilles Martin, FEMTO-ST Institute; Jean-Michel Friedt, SENSEOR SAS; Sylvain Ballandras, <math>frec   n   sys</math> SAS</i>	

## Lattice Clocks

Session Type: Lecture

Session Code: B1L-A

Location: Main Aula

Date & Time: Wednesday, June 25, 2014 (11:00 - 12:40)

Chair: Davide Calonico, INRiM

<b>Optical Lattice Clock Measurements at the mHz Level .....</b>	<b>134</b>
--	------------

*A.D. Ludlow, National Institute of Standards and Technology; N. Hinkley, National Institute of Standards and Technology / University of Colorado; K. Beloy, National Institute of Standards and Technology; N. Phillips, National Institute of Standards and Technology; M. Schioppa, National Institute of Standards and Technology; J. Sherman, National Institute of Standards and Technology; C.W. Oates, National Institute of Standards and Technology*

<b>The PTB Sr Lattice Clock: Status and Frequency Measurement .....</b>	<b>135</b>
<i>S. Falke, Physikalisch-Technische Bundesanstalt; N. Lemke, Physikalisch-Technische Bundesanstalt; C. Grebing, Physikalisch-Technische Bundesanstalt; B. Lipphardt, Physikalisch-Technische Bundesanstalt; S. Weyers, Physikalisch-Technische Bundesanstalt; V. Gerginov, Physikalisch-Technische Bundesanstalt; N. Huntemann, Physikalisch-Technische Bundesanstalt; C. Hagemann, Physikalisch-Technische Bundesanstalt; A. Al-Masoudi, Physikalisch-Technische Bundesanstalt; S. Häfner, Physikalisch-Technische Bundesanstalt; S. Vogt, Physikalisch-Technische Bundesanstalt; U. Sterr, Physikalisch-Technische Bundesanstalt; C. Lisdat, Physikalisch-Technische Bundesanstalt</i>	
<b>Developing Yb and Sr Optical Lattice Clocks in the Same Laboratory .....</b>	<b>136</b>
<i>Daisuke Akamatsu, National Institute of Advanced Industrial Science and Technology; Masami Yasuda, National Institute of Advanced Industrial Science and Technology; Hajime Inaba, National Institute of Advanced Industrial Science and Technology; Kazumoto Hosaka, National Institute of Advanced Industrial Science and Technology; Takehiko Tanabe, National Institute of Advanced Industrial Science and Technology; Atsushi Onae, National Institute of Advanced Industrial Science and Technology; Feng-Lei Hong, National Institute of Advanced Industrial Science and Technology</i>	
<b>Higher-Order Shifts of a Clock Frequency in Sr, Yb and Hg Atoms Trapped in an Optical Lattice .....</b>	<b>137</b>
<i>V.D. Ovsiannikov, Voronezh State University; V.G. Palchikov, National Research Institute for Physical-Technical and Radiotechnical Measurements; H. Katori, University of Tokyo</i>	
<b>Spectroscopy of the <math>^1S_0 \rightarrow ^3P_0</math> Clock Transition in Magnesium .....</b>	<b>138</b>
<i>Ernst M. Rasel, Leibniz Universität Hannover; André P. Kulosa, Leibniz Universität Hannover; Steffen Rühmann, Leibniz Universität Hannover; Dominika B. Fim, Leibniz Universität Hannover; Klaus H. Zipfel, Leibniz Universität Hannover; Wolfgang Ertmer, Leibniz Universität Hannover</i>	
<b>Fiber II</b>	
Session Type: Lecture	
Session Code: B1L-B	
Location: Room 2 - R.N.02	
Date & Time: Wednesday, June 25, 2014 (11:00 - 12:40)	
Chair: Anne Amy-Klein, Université Paris 13	
<b>Time Transfer in a Wide Area White Rabbit Network .....</b>	<b>139</b>
<i>Anders E. Wallin, Centre for Metrology and Accreditation; Thomas Fordell, Centre for Metrology and Accreditation; Jani Myyry, CSC – IT Center for Science Ltd.; Petri Koponen, Centre for Metrology and Accreditation; Mikko Merimaa, Centre for Metrology and Accreditation</i>	
<b>In-Line Extraction of an Ultra-Stable Frequency Signal Over an Optical Fiber Link .....</b>	<b>140</b>
<i>A. Bercy, Université Paris 13 / Observatoire de Paris; S. Guellati-Khelifa, Université Pierre et Marie Curie; F. Stefani, Université Paris 13 / Observatoire de Paris; G. Santarelli, Université de Bordeaux 1; C. Chardonnet, Université Paris 13; P.-E. Pottie, Observatoire de Paris; O. Lopez, Université Paris 13; A. Amy-Klein, Université Paris 13</i>	
<b>Tapping Nodes in Actively Stabilized Fiber Optic Time Transfer .....</b>	<b>141</b>
<i>Przemysław Krehlik, AGH University of Science and Technology; Łukasz Śliwczyński, AGH University of Science and Technology</i>	
<b>Towards Brillouin-Amplified Fibre Links for Long-Distance Optical Frequency Transfer .....</b>	<b>142</b>
<i>S.M.F. Raupach, Physikalisch-Technische Bundesanstalt; A. Koczwara, Physikalisch-Technische Bundesanstalt; G. Grosche, Physikalisch-Technische Bundesanstalt</i>	

**The Three Corner Hat Measurement of Three Hydrogen Masers in Remote Locations via Fiber Based Frequency Synchronization Network** ..... 143

C. Gao, Tsinghua University; B. Wang, Tsinghua University; X. Zhu, Tsinghua University; J. Miao, Tsinghua University; Y. Bai, Tsinghua University; T.C. Li, Tsinghua University / National Institute of Metrology; L.J. Wang, Tsinghua University / National Institute of Metrology

**Materials & Resonators**

Session Type: Lecture

Session Code: B1L-C

Location: Room 3 - R.E.48

Date & Time: Wednesday, June 25, 2014 (11:00 - 12:40)

Chair: Ventsislav Yantchev, Uppsala University

**INVITED: Lithium Niobate Thin-Film Resonators** ..... 144

Sunil A. Bhave, Cornell University

**High Frequency-Low Loss SAW Resonators Built on Nano-Crystalline Diamond-Based Substrate** ..... 145

L. Braun, AR Electronique SAS; E. Courjon, *frec | n | sys* SAS; K. Ait Aissa, Université de Lorraine; P. Bergonzo, CEA LIST, Diamond Sensors Laboratory, CEA-Tech; P. Boillot, AR Electronique SAS; W. Daniau, FEMTO-ST Institute; S. Desgrez, Thales Alenia Space; O. El Mazria, Université de Lorraine; C. Gesset, CEA LIST, Diamond Sensors Laboratory, CEA-Tech; E. Girardet, AR Electronique SAS; T. Laroche, *frec | n | sys* SAS; S. Laurent, XLim-Brive, UMR 6172 CNRS-Université de Limoges; O. Legrani, Université de Lorraine; G. Martin, FEMTO-ST Institute; J.-C. Nallatamby, XLim-Brive, UMR 6172 CNRS-Université de Limoges; L. Raynaud, Thales Alenia Space; S. Renaud, AR Electronique SAS; S. Saada, CEA LIST, Diamond Sensors Laboratory, CEA-Tech; R. Salut, FEMTO-ST Institute; F. Sarry, Université de Lorraine; B. Vincent, Université de Lorraine; S. Ballandras, *frec | n | sys* SAS

**STW Resonator on (0°, 22°, 90°) Cut of Langasite with Al Electrodes** ..... 146

Ayrat Galisultanov, JSC Avangard; Vladimir Kalinin, JSC Avangard; Sergey Volynkin, JSC Avangard; Victor Plessky, GVR Trade SA

**Investigation of GeO<sub>2</sub> Thin Film Properties for Improvement of Temperature Coefficient of Frequency of SAW Devices** ..... 147

M. Knapp, TDK Corporation / Albert-Ludwigs-Universität Freiburg; P. Jäger, TDK Corporation; M. Hauser, TDK Corporation; U. Rösler, TDK Corporation; W. Ruile, TDK Corporation; G. Scheinbacher, TDK Corporation; M. Honal, TDK Corporation; I. Bleyl, TDK Corporation; L.M. Reindl, Albert-Ludwigs-Universität Freiburg

**Resonators**

Session Type: Poster

Session Code: B2P-D

Location: Mobile Lab - R.O.12

Date & Time: Wednesday, June 25, 2014 (14:00 - 15:40)

Chair: Marc Faucher, IEMN

**Leaky SAW with Reduced TCF on LT42/Silicon Substrates** ..... 148

Haixia Wang, FEMTO-ST Institute; Emilie Courjon, *frecn | n | sys* SAS; Thomas Baron, FEMTO-ST Institute; Gilles Martin, FEMTO-ST Institute; Jean-Michel Brice, TDK-EPCOS France; Mathieu Pijolat, TDK-EPCOS France; William Daniau, FEMTO-ST Institute; Sylvain Ballandras, *frecn | n | sys* SAS

**Tunable Reflector of SAW Based on Induced Piezoeffect in Ferroelectrics** ..... 149

Vladimir Pashchenko, Avangard Ltd.; Vladimir Kalinin, Avangard Ltd.

<b>Complete Bandgap SAW Phononic Resonators</b> .....	150
<i>Ventsislav Yantchev, Uppsala University</i>	
<b>Quartz Resonator for MEMS Oscillator</b> .....	151
<i>Béatrice Bourgeteau, Office National d'Etudes et Recherches Aéronautiques; Olivier Le Traon, Office National d'Etudes et Recherches Aéronautiques; Raphaël Levy, Office National d'Etudes et Recherches Aéronautiques; Denis Janiaud, Office National d'Etudes et Recherches Aéronautiques; Pierre Lavenus, Office National d'Etudes et Recherches Aéronautiques; Sébastien Grousset, CEA-Leti</i>	
<b>Ridge-Shaped Periodically Poled Transducer for Wide Band R-F Filter</b> .....	152
<i>Fabien Henrot, FEMTO-ST Institute; Florent Bassignot, FEMTO-ST Institute; Jean-Yves Rauch, FEMTO-ST Institute; Gwenn Ulliac, FEMTO-ST Institute; Sylvain Ballandras, freq   n   sys SAS</i>	
<b>Application of Lagrangian Configuration to the Analysis of Electrostatically-Driven MEMS Resonators</b> .....	153
<i>Bernard Dulmet, FEMTO-ST Institute; Lilia Arapan, FEMTO-ST Institute</i>	
<b>Seed Layer Controlled Deposition of ZnO Films with a Tilted C-Axis for Shear Mode Resonators</b> .....	154
<i>G. Rughoobur, University of Cambridge; M. DeMiguel-Ramos, Universidad Politécnica de Madrid; L. García-Gancedo, University of Cambridge; M. Clement, Universidad Politécnica de Madrid; T. Mirea, Universidad Politécnica de Madrid; J. Olivares, Universidad Politécnica de Madrid; E. Iborra, Universidad Politécnica de Madrid; A.J. Flewitt, University of Cambridge; W.I. Milne, University of Cambridge</i>	
<b>Influence of Electrical Extensions in AlN BAW Resonator Response for in-Liquid Biosensors</b> .....	155
<i>M. Barba, Universidad Politécnica de Madrid; M. DeMiguel-Ramos, Universidad Politécnica de Madrid; T. Mirea, Universidad Politécnica de Madrid; J. Olivares, Universidad Politécnica de Madrid; M. Clement, Universidad Politécnica de Madrid; J. Sangrador, Universidad Politécnica de Madrid; E. Iborra, Universidad Politécnica de Madrid</i>	
<b>High-Frequency Piezoelectric on Si MEMS Resonator and Numerical Method for Parameter Extraction</b> .....	156
<i>Andreja Erbes, University of Cambridge; Abhinav Prasad, University of Cambridge; Ashwin A. Seshia, University of Cambridge</i>	
<b>Fiber &amp; Optical</b>	
Session Type: Poster	
Session Code: B2P-E	
Location: R.O.14	
Date & Time: Wednesday, June 25, 2014 (14:00 - 15:40)	
Chair: Gesine Grosche, PTB	
<b>Time-Transfer Over Optical Fibre Using Pseudo-Random Noise Ranging</b> .....	157
<i>Michael J. Wouters, National Measurement Institute</i>	
<b>The Concept of Differential Wavelength Stabilization of the Semiconductor Lasers for Time and Frequency Transfer System</b> .....	158
<i>Ł. Buczek, AGH University of Science and Technology</i>	

<b>Theoretical and Experimental Investigation of Phase Noise Processes on Optical Fiber Links for Frequency Comparison and Dissemination .....</b>	<b>159</b>
<i>Fabio Stefani, Observatoire de Paris / Université Paris 13; Anthony Bercy, Observatoire de Paris / Université Paris 13; Olivier Lopez, Université Paris 13; Anne Amy-Klein, Université Paris 13; Paul-Eric Pottie, Observatoire de Paris</i>	
<b>Progress of Ultra-Stable Frequency Dissemination and Synchronization in Free Space .....</b>	<b>160</b>
<i>Jing Miao, Tsinghua University; Bo Wang, Tsinghua University; Chao Gao, Tsinghua University; Yu Bai, Tsinghua University; Xi Zhu, Tsinghua University; Lijun Wang, Tsinghua University / National Institute of Metrology</i>	
<b>Testbed for Measuring of the Effect of Fiber Acoustic-Band Phase Noise on the T&amp;F Transfer Stability .....</b>	<b>161</b>
<i>Marcin Lipiński, AGH University of Science and Technology; Przemysław Krehlik, AGH University of Science and Technology; Łukasz Śliwczyński, AGH University of Science and Technology; Łukasz Buczek, AGH University of Science and Technology; Wiesław Wszotek, AGH University of Science and Technology</i>	
<b>Free-Space RF Transfer Between Buildings Using Single-Mode-Fiber-Coupled Optical Communication Terminal .....</b>	<b>162</b>
<i>Miho Fujieda, National Institute of Information and Communications Technology; Kohta Kido, National Institute of Information and Communications Technology / Japan Science and Technology Agency; Nobuyasu Shiga, National Institute of Information and Communications Technology / Japan Science and Technology Agency; Yoshinori Arimoto, National Institute of Information and Communications Technology</i>	
<b>OPTIME – Time and Frequency Dissemination System Based on Fiber Optical Network – Local Repository Project .....</b>	<b>163</b>
<i>W. Adamowicz, Orange Polska S.A.; A. Binczewski, Poznan Supercomputing and Networking Center; W. Bogacki, Poznan Supercomputing and Networking Center; A. Czubla, Główny Urząd Miar, Central Office of Measures; P. Dunst, Astrogeodynamic Observatory; J. Igalson, Orange Polska S.A.; J. Kołodziej, AGH University of Science and Technology; P. Krehlik, AGH University of Science and Technology; D. Lemański, Astrogeodynamic Observatory; M. Lipiński, AGH University of Science and Technology; J. Nawrocki, Astrogeodynamic Observatory; P. Nogaś, Astrogeodynamic Observatory; P. Ostapowicz, Poznan Supercomputing and Networking Center; T. Pawszak, Orange Polska S.A.; J. Pieczerak, Orange Polska S.A.; M. Stroiński, Poznan Supercomputing and Networking Center; Ł. Śliwczyński, AGH University of Science and Technology; K. Turza, Poznan Supercomputing and Networking Center</i>	
<b>Towards an International Optical Clock Comparison Between NPL and SYRTE Using an Optical Fibre Network .....</b>	<b>164</b>
<i>Giuseppe Marra, National Physical Laboratory; Jochen Kronjaeger, National Physical Laboratory; Paul-Eric Pottie, Observatoire de Paris; Anne Amy-Klein, Université Paris 13; Olivier Lopez, Université Paris 13; Christian Chardonnet, Université Paris 13; Davide Calonico, Istituto Nazionale di Ricerca Metrologica; Guy Roberts, DANTE; Harald Schnatz, Physikalisch-Technische Bundesanstalt</i>	
<b>Progress on a Cascaded Optical Link Between Paris and Strasbourg .....</b>	<b>165</b>
<i>Olivier Lopez, Université Paris 13; Nicola Chiodo, Université Paris 13; Fabrice Wiotte, Université Paris 13; Nicolas Quintin, Université Paris 13; Fabio Stefani, Observatoire de Paris / Université Paris 13; Anthony Bercy, Université Paris 13 / Observatoire de Paris; Giorgio Santarelli, Observatoire de Paris / Université de Bordeaux; Christian Chardonnet, Université Paris 13; Paul-Eric Pottie, Observatoire de Paris; Anne Amy-Klein, Université Paris 13</i>	
<b>Time and Frequency Transfer Using Amplified Optical Links .....</b>	<b>166</b>
<i>Vladimir Smotlacha, CESNET; Josef Vojtech, CESNET</i>	

<b>Digital Implementation of a Two-Way Coherent Phase Transfer Over Optical Fiber for Remote Clocks Comparisons .....</b>	<b>167</b>
<i>Claudio E. Calosso, Istituto Nazionale di Ricerca Metrologica; Elio Bertacco, Istituto Nazionale di Ricerca Metrologica; Davide Calonico, Istituto Nazionale di Ricerca Metrologica; Cecilia Clivati, Istituto Nazionale di Ricerca Metrologica; Giovanni A. Costanzo, Istituto Nazionale di Ricerca Metrologica / Politecnico di Torino; Matteo Frittelli, Istituto Nazionale di Ricerca Metrologica; Filippo Levi, Istituto Nazionale di Ricerca Metrologica; Alberto Mura, Istituto Nazionale di Ricerca Metrologica; Aldo Godone, Istituto Nazionale di Ricerca Metrologica</i>	
<b>Multi-Purpose Constant-Delay Optical Link .....</b>	<b>168</b>
<i>Jurij Tratnik, InLambda BDT d.o.o. / University of Ljubljana; Uros Dragonja, InLambda BDT d.o.o.; Bostjan Batagelj, University of Ljubljana / Center of Excellence for Biosensors, Instrumentation and Process Control</i>	
<b>Noise Performance Optimization of Time and Frequency Dissemination System in Presence of Fiber Mechanical Vibration .....</b>	<b>169</b>
<i>J. Kołodziej, AGH University of Science and Technology; W. Słowik, AGH University of Science and Technology; P. Krehlik, AGH University of Science and Technology; Ł. Śliwczyński, AGH University of Science and Technology</i>	
<b>Measurement of Acoustic Noise in Field-Deployed Fiber Optic Cables .....</b>	<b>170</b>
<i>Łukasz Śliwczyński, AGH University of Science and Technology; Przemysław Krehlik, AGH University of Science and Technology</i>	
<b>Driver for an External Mach-Zehnder Intensity Modulator with High Propagation Delay Stability .....</b>	<b>171</b>
<i>Łukasz Śliwczyński, AGH University of Science and Technology; Przemysław Krehlik, AGH University of Science and Technology</i>	
<b>Extending the Delay Compensation Range of the Fiber Optic Time and Frequency Transfer System .....</b>	<b>172</b>
<i>Przemysław Krehlik, AGH University of Science and Technology; Łukasz Śliwczyński, AGH University of Science and Technology; Marek Idzik, AGH University of Science and Technology</i>	
<b>Verification of TIC Characteristics for Precise Optical Fiber Time Transfer Links .....</b>	<b>173</b>
<i>A. Czubla, Central Office of Measures; R. Osmyk, Central Office of Measures; P. Szterk, Central Office of Measures; P. Krehlik, AGH University of Science and Technology; Ł. Śliwczyński, AGH University of Science and Technology; R. Szplet, Military University of Technology; Z. Jachna, Military University of Technology; K. Różyc, Military University of Technology</i>	
<b>Oscillators, Synthesizers, Noise &amp; Circuit Techniques</b>	
Session Type: Poster	
Session Code: B2P-F	
Location: R.O.14	
Date & Time: Wednesday, June 25, 2014 (14:00 - 15:40)	
Chair: Olivier Lopis, LAAS-CNRS	
<b>Wideband, Low Noise and Low Spurious Agile Direct Frequency Synthesis Based on Combination of SAW Oscillator and High Speed DAC .....</b>	<b>174</b>
<i>Jean-Marc Lesage, DGA-Information Superiority; Adrien Capaine, DGA-Information Superiority; Jean-François Penn, DGA-Information Superiority; Guy Jestin, DGA-Information Superiority</i>	
<b>Active Complementary Coupled Resonator for Low Phase Noise X-Band Oscillator .....</b>	<b>175</b>
<i>Chung-Tse Michael Wu, University of California, Los Angeles; Ajay K. Poddar, Synergy Microwave Corporation; Ulrich L. Rohde, Synergy Microwave Corporation; Tatsuo Itoh, University of California, Los Angeles</i>	

<b>Micro-Miniature, SMD, Ultra Low Phase Noise, HF OCXO</b> .....	176
<i>R. Boroditsky, NEL Frequency Controls; J. Gomez, NEL Frequency Controls</i>	
<b>Exploration of 1/F Noise Origin Using Time Measurements</b> .....	177
<i>Santunu Ghosh, FEMTO-ST Institute; Fabrice Sthal, FEMTO-ST Institute; Michel Devel, FEMTO-ST Institute; Joel Imbaud, FEMTO-ST Institute; Roger Bourquin, FEMTO-ST Institute; P. Abbé, FEMTO-ST Institute; D. Vernier, FEMTO-ST Institute; A. Bakir, FEMTO-ST Institute; G. Cibié, Centre National d'Etudes Spatiales</i>	
<b>A Low Phase Noise NLTL-Based Synthesis Chain for a High Performance Cs CPT Atomic Clock</b> .....	178
<i>B. François, FEMTO-ST Institute; C.E. Calosso, Istituto Nazionale di Ricerca Metrologica; R. Boudot, FEMTO-ST Institute</i>	
<b>Recent Achievements in Performance of 100 MHz Crystals and OCXOs</b> .....	179
<i>Yakov Vorokhovskiy, Morion Inc.; Vladimir Lyaskovskiy, Morion Inc.; Yaroslav Kolpakov, Morion Inc.; Arkady Nikonov, Morion Inc.; Alexander Kotyukov, Morion Inc.</i>	
<b>Highly-Stable Metrological Thermostat for Active Characterization of Resonators with Automatic Turnover Point Settings</b> .....	180
<i>Nikolay Vorobyev, FEMTO-ST Institute; Joël Imbaud, FEMTO-ST Institute; Philippe Abbé, FEMTO-ST Institute; Fabrice Sthal, FEMTO-ST Institute</i>	
<b>Phase Noise and Jitter in Digital Electronics</b> .....	181
<i>Claudio E. Calosso, Istituto Nazionale di Ricerca Metrologica; Enrico Rubiola, FEMTO-ST Institute</i>	
<b>Optimization of a Local Oscillator to Achieve Minimum Impairment of the Receiver by Phase Noise</b> .....	182
<i>Michael Nebel, Universität der Bundeswehr München; Berthold Lankl, Universität der Bundeswehr München</i>	
<b>Microwave Phase Noise Properties of Optical Links Involving Small Signal and Gain Saturated Optical Amplifiers</b> .....	183
<i>V. Auroux, LAAS-CNRS, OSAT; A. Fernandez, LAAS-CNRS; O. Llopis, LAAS-CNRS; P.H. Merrer, OSAT; A. Vouzellaud, OSAT</i>	
<b>Low Noise Master Oscillator LNMO</b> .....	184
<i>G. Wagner, Orolia Switzerland SA; M. Desaulles, Orolia Switzerland SA; F. Droz, Orolia Switzerland</i>	
<b>Microwave Frequency Standards II</b>	
Session Type: Poster	
Session Code: B2P-G	
Location: R.S.38	
Date & Time: Wednesday, June 25, 2014 (14:00 - 15:40)	
Chair: Stefan Weyers, Physikalisch-Technische Bundesanstalt (PTB)	
<b>Preliminary Measurements of Buffer Gas Collisional Clock Frequency Shifts in Cs Vapor Cells in Presence of Xe and He</b> .....	185
<i>E. Kroemer, FEMTO-ST Institute; R. Boudot, FEMTO-ST Institute</i>	

<b>Development of the Cesium Fountain Frequency Standard, NMIJ-F2 .....</b>	<b>186</b>
<i>A. Takamizawa, National Institute of Advanced Industrial Science and Technology; S. Yanagimachi, National Institute of Advanced Industrial Science and Technology; T. Tanabe, National Institute of Advanced Industrial Science and Technology; K. Hagimoto, National Institute of Advanced Industrial Science and Technology; I. Hirano, National Institute of Advanced Industrial Science and Technology; K. Watabe, National Institute of Advanced Industrial Science and Technology; T. Ikegami, National Institute of Advanced Industrial Science and Technology; J.G. Hartnett, University of Adelaide</i>	
<b>A Frequency-Temperature Compensated Sapphire Loaded Cavity for Satellite Hydrogen Maser .....</b>	<b>187</b>
<i>Nuan-rang Wang, Beijing Institute of Radio Metrology &amp; Measurement; Fan Shi, Beijing Institute of Radio Metrology &amp; Measurement; Sheng-Kang Zhang, Beijing Institute of Radio Metrology &amp; Measurement; Ren-Fu Yang, Beijing Institute of Radio Metrology &amp; Measurement; Feng Nian, Beijing Institute of Radio Metrology &amp; Measurement; Lian-Shan Gao, Beijing Institute of Radio Metrology &amp; Measurement</i>	
<b>Main Construction Features of the on Board Active Hydrogen Maser for Radioastron Mission .....</b>	<b>188</b>
<i>A. Utkin, Vremya-CH; A. Beliaev, Vremya-CH; Y. Pavlenko, Vremya-CH</i>	
<b>Atomic Clocks Continuous Development and Production Capability for Navigation at SELEX ES .....</b>	<b>189</b>
<i>Alberto Battisti, Selex ES; Marina Gioia, Selex ES; Aurelio Borella, Selex ES</i>	
<b>Raman Transitions of Free Falling Atoms for an Atomic Gravimeter Developing at KRISS .....</b>	<b>190</b>
<i>Sang-Bum Lee, Korea Research Institute of Standards and Science; Taeg Yong Kwon, Korea Research Institute of Standards and Science; Sang Eon Park, Korea Research Institute of Standards and Science; Myoung-Sun Heo, Korea Research Institute of Standards and Science; Chang Yong Park, Korea Research Institute of Standards and Science; Won-Kyu Lee, Korea Research Institute of Standards and Science; Dai-Hyuk Yu, Korea Research Institute of Standards and Science</i>	
<b>Present State of the Primary Frequency Standard SU CsF02 .....</b>	<b>191</b>
<i>Yuri Domnin, FGUP "VNIIFTRI"; Vyacheslav Baryshev, FGUP "VNIIFTRI"; Alexandr Boyko, FGUP "VNIIFTRI"; Alexey Novoselov, FGUP "VNIIFTRI"; Leonid Kopylov, FGUP "VNIIFTRI"; Dmitry Kupalov, FGUP "VNIIFTRI"; Olga Kupalova, FGUP "VNIIFTRI"</i>	
<b>Atomic Clock Ensemble in Space .....</b>	<b>192</b>
<i>L. Cacciapuoti, European Space Agency; R. Much, European Space Agency; S. Carli, European Space Agency; L. De Parolis, European Space Agency; J. Kehler, Airbus Defence and Space; M.P. Hess, Airbus Defence and Space; A. Helm, Airbus Defence and Space; T. Niedermaier, Airbus Defence and Space; D. Massonnet, Centre National d'Etudes Spatiales; W. Schaefer, TimeTech GmbH; X. Stehlin, Spectratime; P. Mosset, Spectratime; D. Goujon, Spectratime; P. Rochat, Spectratime; I. Moric, Observatoire de Paris; P. Laurent, Observatoire de Paris; P. Wolf, Observatoire de Paris; C. Salomon, École Normale Supérieure</i>	
<b>Investigation of Compact Magneto-Optical Sources of Slow Atoms for Fountain Standard Based on <math>^{87}\text{Rb}</math> .....</b>	<b>193</b>
<i>Ekaterina Aleinikova, FGUP "VNIIFTRI"; Dmitry Kupalov, FGUP "VNIIFTRI"</i>	
<b>Absorption <math>^{87}\text{Rb}</math> Cells with Anti-Relaxation Wall Coating with the Ultimately Low TFC Near to the Zero Value for Supporting a High Long-Term Stability of Frequency Standards .....</b>	<b>194</b>
<i>E. Pestov, Russian Institute of Radionavigation and Time; Viktor Azarov, Federal State Unitary Research and Production Enterprise Geologorazvedka; Mikhail Goncharenko, Russian Institute of Radionavigation and Time</i>	

<b>Absorption Spectroscopy of <math>^{85}\text{Rb}</math> Atoms at 420 nm: Pressure Broadening with <math>\text{N}_2</math> Buffer Gas and Saturation Intensity</b> .....	195
<i>Xi Zeng, Centre Suisse d'Electronique et Microtechnique SA; Dmitri L. Boiko, Centre Suisse d'Electronique et Microtechnique SA</i>	
<b>Recent Progress on Commissioning an Optically Pumped Cesium Beam as Primary Frequency Standard at Brazilian NMI</b> .....	196
<i>Luiz Vicente Gomes Tarelho, Instituto Nacional de Metrologia, Qualidade e Tecnologia; Guilherme de Andrade Garcia, Instituto Nacional de Metrologia, Qualidade e Tecnologia; Antonio Carlos Baratto, Instituto Nacional de Metrologia, Qualidade e Tecnologia; Rodolfo Saboia Lima de Souza, Instituto Nacional de Metrologia, Qualidade e Tecnologia; Jair De Martin Junior, Universidade de São Paulo; Stella Torres Müller, Universidade de São Paulo; Daniel Varela Magalhães, Universidade de São Paulo; Aida Bebechibuli, Universidade de São Paulo; Vanderlei Salvador Bagnato, Universidade de São Paulo; Giovanni Daniele Rovera, Observatoire de Paris</i>	
<b>Optical Clocks II</b>	
Session Type: Poster	
Session Code: B2P-H	
Location: R.S.38	
Date & Time: Wednesday, June 25, 2014 (14:00 - 15:40)	
Chair: Thomas Legero, PTB	
<b>Active Optical Frequency Standards Using Cold Atoms: Perspectives and Challenges</b> .....	197
<i>Georgy A. Kazakov, Technische Universität Wien; Thorsten Schumm, Technische Universität Wien</i>	
<b>Polarizabilities of Actinides and Lanthanides</b> .....	198
<i>Alexander Kozlov, University of New South Wales; Vladimir Dzuba, University of New South Wales; Victor Flambaum, University of New South Wales</i>	
<b>Inhomogeneous-Excitation Frequency Shifts of Ytterbium Optical Lattice Clocks</b> .....	199
<i>Ning Chen, East China Normal University; Min Zhou, East China Normal University; Xiaohang Zhang, East China Normal University; Qi Gao, East China Normal University; Chengyin Han, East China Normal University; Yilin Xu, East China Normal University; Xinye Xu, East China Normal University</i>	
<b>Optical Frequency Standard with Ytterbium Single Ion</b> .....	200
<i>S.V. Chepurov, Institute of Laser Physics SB RAS; A.A. Lugovoy, Institute of Laser Physics SB RAS; S.N. Kuznetsov, Institute of Laser Physics SB RAS / Novosibirsk State University; M.V. Okhapkin, Institute of Laser Physics SB RAS / Physikalisch-Technische Bundesanstalt; A.V. Taichenachev, Institute of Laser Physics SB RAS / Novosibirsk State University; V.I. Yudin, Institute of Laser Physics SB RAS / Novosibirsk State University; S.N. Bagayev, Institute of Laser Physics SB RAS</i>	
<b>Progress Report Towards an <math>\text{Al}^+</math> Quantum Logic Optical Clock</b> .....	201
<i>Stephan Hannig, Physikalisch-Technische Bundesanstalt; Jannes B. Wübbena, Physikalisch-Technische Bundesanstalt; Nils Scharnhorst, Physikalisch-Technische Bundesanstalt; Sana Amairi, Physikalisch-Technische Bundesanstalt; Ian D. Leroux, Physikalisch-Technische Bundesanstalt; Tanja E. Mehlstäubler, Physikalisch-Technische Bundesanstalt; Piet O. Schmidt, Physikalisch-Technische Bundesanstalt / Leibniz Universität Hannover</i>	
<b>A Compact 461-nm Laser Source for <math>\text{Sr}^+</math> Trapped-Ion Experiments</b> .....	202
<i>Thomas Fordell, Centre for Metrology and Accreditation; Thomas Lindvall, Centre for Metrology and Accreditation; Anders E. Wallin, Centre for Metrology and Accreditation; Mikko Merimaa, Centre for Metrology and Accreditation</i>	
<b>A Frequency-Comb-Stabilized Laser for Cooling <math>\text{Sr}^+</math> Ions</b> .....	203
<i>Thomas Fordell, Centre for Metrology and Accreditation; Anders E. Wallin, Centre for Metrology and Accreditation; Thomas Lindvall, Centre for Metrology and Accreditation; Mikko Merimaa, Centre for Metrology and Accreditation</i>	

<b>PTB's Transportable Sr Lattice Clock</b> .....	204
<i>Stefan Vogt, Physikalisch-Technische Bundesanstalt; Stephan Falke, Physikalisch-Technische Bundesanstalt; Sebastian Häfner, Physikalisch-Technische Bundesanstalt; Uwe Sterr, Physikalisch-Technische Bundesanstalt; Christian Lisdat, Physikalisch-Technische Bundesanstalt</i>	
<b>Least-Squares Analysis of Clock Comparison Data to Deduce Optimized Frequency and Frequency Ratio Values</b> .....	205
<i>H.S. Margolis, National Physical Laboratory; P. Gill, National Physical Laboratory</i>	
<b>Towards Optical Clocks and Coherent Frequency Transfer in Sweden</b> .....	206
<i>Martin Zelan, SP Technical Research Institute of Sweden; Sven Christian Ebenhag, SP Technical Research Institute of Sweden; Per Olof Hedekvist, SP Technical Research Institute of Sweden</i>	
<b>Ytterbium Lattice Clock Development at RIKEN</b> .....	207
<i>Nils Nemitz, RIKEN / Japan Science and Technology Agency; Manoj Das, RIKEN / Japan Science and Technology Agency; Takuya Ohkubo, RIKEN / Japan Science and Technology Agency / University of Tokyo; Masao Takamoto, RIKEN / Japan Science and Technology Agency; Hidetoshi Katori, RIKEN / Japan Science and Technology Agency / University of Tokyo</i>	
<b>Reduction in the Blackbody Radiation Shift Uncertainty of Optical Clock Transitions in <math>^{171}\text{Yb}^+</math></b> .....	208
<i>Peter Nisbet-Jones, National Physical Laboratory; Rachel Godun, National Physical Laboratory; Steven King, National Physical Laboratory; Jonathan Jones, National Physical Laboratory / University of Birmingham; Patrick Gill, National Physical Laboratory</i>	
<b>Preliminary Experiment of Sympathetic Cooling a Single <math>\text{Al}^+</math> Ion by <math>\text{Ca}^+</math> Ions in a Linear Paul Ion Trap</b> .....	209
<i>Jian Cao, Wuhan Institute of Physics and Mathematics / Chinese Academy of Sciences; Junjuan Shang, Wuhan Institute of Physics and Mathematics / Chinese Academy of Sciences; Kaifeng Cui, Wuhan Institute of Physics and Mathematics / Chinese Academy of Sciences; Hualin Shu, Wuhan Institute of Physics and Mathematics / Chinese Academy of Sciences; Xueren Huang, Wuhan Institute of Physics and Mathematics / Chinese Academy of Sciences</i>	
<b>The SOC2 Transportable <math>^{171}\text{Yb}</math> Lattice Clock</b> .....	210
<i>Gregor Mura, Heinrich-Heine-Universität Düsseldorf; Tobias Franzen, Heinrich-Heine-Universität Düsseldorf; Charbel Abou Jaoudeh, Heinrich-Heine-Universität Düsseldorf; Axel Görlitz, Heinrich-Heine-Universität Düsseldorf; Heiko Luckmann, Heinrich-Heine-Universität Düsseldorf; Ingo Ernsting, Heinrich-Heine-Universität Düsseldorf; Alexander Nevsky, Heinrich-Heine-Universität Düsseldorf; Stephan Schiller, Heinrich-Heine-Universität Düsseldorf</i>	
<b>Atomic Clock Based on Magneto-Dipole Transitions in Highly Charged Ions</b> .....	211
<i>Valeriy Yudin, Institute of Laser Physics / Novosibirsk State University / Novosibirsk State Technical University / Russian Quantum Center; Aleksei Taichenachev, Institute of Laser Physics / Novosibirsk State University / Russian Quantum Center; Andrei Derevianko, University of Nevada</i>	
<b>Probing <math>m_e/m_p</math> Variation by Comparison of Near-Resonant Acetylene Reference Lines at <math>1.5\ \mu\text{m}</math></b> .....	212
<i>Florin Lucian Constantin, Centre National de la Recherche Scientifique</i>	
<b>Preliminary Determination of the Magic Wavelength of Magnesium-24</b> .....	213
<i>Steffen Rühmann, Leibniz Universität Hannover; André Kulosa, Leibniz Universität Hannover; Dominika Fim, Leibniz Universität Hannover; Klaus Zipfel, Leibniz Universität Hannover; Wolfgang Ertmer, Leibniz Universität Hannover; Ernst Rasel, Leibniz Universität Hannover</i>	

**Towards an  $^{27}\text{Al}^+$  Ion Optical Clock** ..... 214

Zetian Xu, Huazhong University of Science and Technology; Xiaoyi Zeng, Huazhong University of Science and Technology; Xiaohui Shi, Huazhong University of Science and Technology; Huang Che, Huazhong University of Science and Technology; Ke Deng, Huazhong University of Science and Technology; Jie Zhang, Huazhong University of Science and Technology; Zehuang Lu, Huazhong University of Science and Technology

**Ultra-Precise Optical Clock: New Methods and Approaches** ..... 215

S.N. Bagayev, Institute of Laser Physics / Novosibirsk State University; Aleksei Taichenachev, Institute of Laser Physics / Novosibirsk State University; Valeriy Yudin, Institute of Laser Physics / Novosibirsk State University / Novosibirsk State Technical University / Russian Quantum Center

**Cavity-Enhanced Non-Destructive Detection of Atomic Populations in Optical Lattice Clocks** ..... 216

Rodolphe Le Targat, Observatoire de Paris; Ulrich Eismann, Observatoire de Paris; Chunyan Shi, Observatoire de Paris; Jean-Luc Robyr, Observatoire de Paris; Jérôme Lodewyck, Observatoire de Paris

**Space Clocks**

Session Type: Lecture

Session Code: B3L-A

Location: Main Aula

Date & Time: Wednesday, June 25, 2014 (16:00 - 17:40)

Chair: Johann Richard, SEFRI Swiss Space Office

**Tests on Ground of the Flight Model of the PHARAO Cold Atom Space Clock** ..... 217

Philippe Laurent, Observatoire de Paris; Igor Moric, Observatoire de Paris; Christophe Delaroche, Centre National d'Etudes Spatiales; Olivier Grosjean, Centre National d'Etudes Spatiales; Philippe Chatard, Centre National d'Etudes Spatiales; Michel Abgrall, Observatoire de Paris; Daniele Rovera, Observatoire de Paris; Didier Massonnet, Centre National d'Etudes Spatiales; Charles-Marie de Graeve, Centre National d'Etudes Spatiales; Sebastien Tellier, Centre National d'Etudes Spatiales; Caroline Stepien, Centre National d'Etudes Spatiales; Lionel Fonta, Centre National d'Etudes Spatiales; Sabine Julien, Centre National d'Etudes Spatiales; Emilie Leynia de la Jarrige, Centre National d'Etudes Spatiales; Claude Escandes, Centre National d'Etudes Spatiales; Phillipe Gasc, Centre National d'Etudes Spatiales; Andria Ratsimandresy, Centre National d'Etudes Spatiales; Serge Béraud, Centre National d'Etudes Spatiales; Thomas Basquin, Centre National d'Etudes Spatiales; Fabrice Buffé, Centre National d'Etudes Spatiales; Patrizia Torresi, Centre National d'Etudes Spatiales; Philippe Larivière, Centre National d'Etudes Spatiales; Bernard Vivian, Centre National d'Etudes Spatiales; Benoît Faure, Centre National d'Etudes Spatiales; Thomas Leveque, Centre National d'Etudes Spatiales; François-Xavier Esnault, Centre National d'Etudes Spatiales; David Valat, Centre National d'Etudes Spatiales; Michel Chaubet, Centre National d'Etudes Spatiales; Sylvie Léon, Centre National d'Etudes Spatiales; Christophe Salomon, Laboratoire Kastler-Brossel; Phillip Peterman, Pennsylvania State University; Kurt Gibble, Pennsylvania State University

**Accuracy Evaluation of the ACES/PHARAO Laser-Cooled Space Atomic Clock** ..... 218

Phillip Peterman, Pennsylvania State University; Kurt Gibble, Pennsylvania State University; Philippe Laurent, Observatoire de Paris; Igor Moric, Observatoire de Paris; Christophe Salomon, École Normale Supérieure

**Preliminary Test of a Cold-Atom Based Clock Prototype on a Microgravity Platform: Rubiclock on the A-300 0g** ..... 219

Luigi De Sarlo, Observatoire de Paris; Mehdi Langlois, Observatoire de Paris; David Holleville, Observatoire de Paris; Michel Lours, Observatoire de Paris; Noël Dimarcq, Observatoire de Paris; Jean-François Schaff, Muquans; Simon Bernon, Muquans / LP2N, Institut d'Optique d'Aquitaine, Université Bordeaux 1; Bruno Desruelle, Muquans

**Industrialisation Approach of the POP Atomic Clock for Application to GNSS** ..... 220

A. Battisti, Selex ES; M. Gioia, Selex ES; A. Borella, Selex ES; A. Godone, Istituto Nazionale di Ricerca Metrologica; F. Levi, Istituto Nazionale di Ricerca Metrologica; C. Calosso, Istituto Nazionale di Ricerca Metrologica; S. Micalizio, Istituto Nazionale di Ricerca Metrologica

## Optical Clocks I

Session Type: Lecture

Session Code: B3L-B

Location: Room 2 - R.N.02

Date & Time: Wednesday, June 25, 2014 (16:00 - 17:40)

Chair: Andrew Ludlow, NIST

### **Very Long Baseline Comparison of Sr Lattice Clocks Using Car-Rier-Phase Two-Way Satellite Frequency Transfer ..... 221**

*Hidekazu Hachisu, National Institute of Information and Communications Technology; Miho Fujieda, National Institute of Information and Communications Technology; Shigeo Nagano, National Institute of Information and Communications Technology; Tadahiro Gotoh, National Institute of Information and Communications Technology; Tetsuya Ido, National Institute of Information and Communications Technology; Stephan Falke, Physikalisch-Technische Bundesanstalt; Nils Huntemann, Physikalisch-Technische Bundesanstalt; Christian Grebing, Physikalisch-Technische Bundesanstalt; Burghard Lipphardt, Physikalisch-Technische Bundesanstalt; Christian Lisdat, Physikalisch-Technische Bundesanstalt; Dirk Piester, Physikalisch-Technische Bundesanstalt*

### **Optical Clocks Based on Highly Charged Ions with Enhanced Sensitivity to Variations in the Fundamental Constants ..... 222**

*Julian Berengut, University of New South Wales; Andrew Ong, University of New South Wales; Vladimir Dzuba, University of New South Wales; Victor Flambaum, University of New South Wales*

### **On the Prospects of Building Optical Atomic Clocks Using Er I or Er III ..... 223**

*Alexander Kozlov, University of New South Wales; Vladimir Dzuba, University of New South Wales; Victor Flambaum, University of New South Wales*

### **An Ultra-Low Frequency Noise Laser Based on a 48 cm Long ULE Cavity for a Sr Lattice Clock ..... 224**

*S. Häfner, Physikalisch-Technische Bundesanstalt; S. Vogt, Physikalisch-Technische Bundesanstalt; A. Al-Masoudi, Physikalisch-Technische Bundesanstalt; St. Falke, Physikalisch-Technische Bundesanstalt; C. Grebing, Physikalisch-Technische Bundesanstalt; M. Merimaa, Centre for Metrology and Accreditation; Th. Legero, Physikalisch-Technische Bundesanstalt; Ch. Lisdat, Physikalisch-Technische Bundesanstalt; Uwe Sterr, Physikalisch-Technische Bundesanstalt*

### **Compact Atomics Package and Integration of a Transportable Strontium Lattice Clock ..... 225**

*Yeshpal Singh, University of Birmingham; Lyndsie Smith, University of Birmingham; Ole Kock, University of Birmingham; Wei He, University of Birmingham; Dariusz Swierad, University of Birmingham; Kai Bongs, University of Birmingham*

## MEMS Oscillators

Session Type: Lecture

Session Code: B3L-C

Location: Room 3 - R.E.48

Date & Time: Wednesday, June 25, 2014 (16:00 - 17:40)

Chair: Steve Tanner, EPFL

### **INVITED: High Frequency Piezoelectric MEMS Oscillators ..... 226**

*Gianluca Piazza, Carnegie Mellon University*

### **Low Power MEMS Oscillators for Sensor Applications ..... 227**

*Cuong Do, University of Cambridge; Andreja Erbes, University of Cambridge; Jize Yan, University of Cambridge; Ashwin A. Seshia, University of Cambridge*

<b>Low-G Sensitivity of HBAR Oscillator</b> .....	228
<i>Thomas Baron, FEMTO-ST Institute; Gilles Martin, FEMTO-ST Institute; Florent Bassignot, FEMTO-ST Institute; Nicolas Chrétien, FEMTO-ST Institute; David Rabus, SENSEOR; Alexandre Reinhardt, CEA-Leti; Pierre-Patrick Lassagne, CEA-Leti; Jean-Marc Lesage, DGA; Luc Chommeloux, SENSEOR; Sylvain Ballandras, freq   n   sys SAS</i>	
<b>A Compact, Versatile, Miniature Timing Microsystem Using Two Co-Integrated Wafer-Level Packaged Silicon Resonators</b> .....	229
<i>David Ruffieux, Centre Suisse d'Electronique et Microtechnique SA; Nicola Scolari, Centre Suisse d'Electronique et Microtechnique SA; Thanh C. Le, Centre Suisse d'Electronique et Microtechnique SA; Antti Jaakkola, VTT Technical Research Centre of Finland; Tuomas Pensala, VTT Technical Research Centre of Finland; James Dekker, VTT Technical Research Centre of Finland; Pradeep Dixit, VTT Technical Research Centre of Finland; Charles A. Manier, Fraunhofer-Institut für Zuverlässigkeit und Mikrointegration; Kai Zoschke, Fraunhofer-Institut für Zuverlässigkeit und Mikrointegration; Hermann Oppermann, Fraunhofer-Institut für Zuverlässigkeit und Mikrointegration</i>	
<b>New Concepts in Atomic Clocks &amp; Sensors</b>	
Session Type: Lecture	
Session Code: C1L-A	
Location: Main Aula	
Date & Time: Thursday, June 26, 2014 (9:00 - 10:40)	
Chair: Peter Rosenbusch, LNE-SYRTE	
<b>INVITED: Atomic Clocks Below the Standard Quantum Limit</b> .....	230
<i>Vladan Vuletić, Massachusetts Institute of Technology; Robert McConnell, Massachusetts Institute of Technology; Hao Zhang, Massachusetts Institute of Technology; Jiazhong Hu, Massachusetts Institute of Technology; Akio Kawasaki, Massachusetts Institute of Technology; Boris Braverman, Massachusetts Institute of Technology</i>	
<b>Rydberg Spin-Squeezing for a Strontium Optical Lattice Clock</b> .....	231
<i>E.M. Bridge, Durham University; L.I.R. Gil, Max Planck Institute for the Physics of Complex Systems; R. Mukherjee, Max Planck Institute for the Physics of Complex Systems; D. Boddy, Durham University; D.P. Sadler, Durham University; A.D. Bounds, Durham University; C.S. Adams, Durham University; M.P.A. Jones, Durham University; T. Pohl, Max Planck Institute for the Physics of Complex Systems</i>	
<b>Simultaneous Dual Species Matter Wave Interferometry</b> .....	232
<i>Ernst M. Rasel, Leibniz Universität Hannover; Dennis Schlippert, Leibniz Universität Hannover; Henning Albers, Leibniz Universität Hannover; Logan Richardson, Leibniz Universität Hannover; Christian Meiners, Leibniz Universität Hannover; Jonas Hartwig, Leibniz Universität Hannover; Wolfgang Ertmer, Leibniz Universität Hannover</i>	
<b>Atom Chip Based Guided Atom Interferometer for Rotation Sensing</b> .....	233
<i>Carlos L. Garrido Alzar, Observatoire de Paris; Wenhua Yan, Observatoire de Paris; Arnaud Landragin, Observatoire de Paris</i>	

## Ion Clocks

Session Type: Lecture

Session Code: C1L-B

Location: Room 2 - R.N.02

Date & Time: Thursday, June 26, 2014 (9:00 - 10:40)

Chair: Sébastien Bize, SYRTE

### **Optical Clock Based on the $^{171}\text{Yb}^+$ Octupole Transition with Uncertainty at the $10^{-18}$ Level** ..... 234

*N. Huntemann, Physikalisch-Technische Bundesanstalt; C. Sanner, Physikalisch-Technische Bundesanstalt;  
B. Lipphardt, Physikalisch-Technische Bundesanstalt; Chr. Tamm, Physikalisch-Technische Bundesanstalt;  
E. Peik, Physikalisch-Technische Bundesanstalt*

### **Measurement of the Absolute Frequencies of Two Optical Clock Transitions in $^{171}\text{Yb}^+$** ..... 235

*Steven King, National Physical Laboratory; Rachel Godun, National Physical Laboratory; Peter Nisbet-Jones, National Physical Laboratory; Jonathan Jones, National Physical Laboratory / University of Birmingham; Helen Margolis, National Physical Laboratory; Luke Johnson, National Physical Laboratory; Teresa Ferreira, National Physical Laboratory; Krzysztof Szymaniec, National Physical Laboratory; Kai Bongs, University of Birmingham; Patrick Gill, National Physical Laboratory*

### **Measurement of the Static Scalar Polarizability of the $^{88}\text{Sr}^+$ Clock Transition** ..... 236

*P. Dubé, National Research Council Canada; A.A. Madej, National Research Council Canada / University of Ottawa; M. Tibbo, University of Ottawa; J.E. Bernard, National Research Council Canada*

### **Agreement Between Two $^{88}\text{Sr}^+$ Optical Clocks to 4 Parts in $10^{17}$** ..... 237

*Geoffrey Barwood, National Physical Laboratory; Guilong Huang, National Physical Laboratory; Hugh Klein, National Physical Laboratory; Luke Johnson, National Physical Laboratory; Steven King, National Physical Laboratory; Helen Margolis, National Physical Laboratory; Krzysztof Szymaniec, National Physical Laboratory; Patrick Gill, National Physical Laboratory*

### **Towards Optical Clocks Based on Multi-Ion Systems** ..... 238

*Tanja E. Mehlstäubler, Physikalisch-Technische Bundesanstalt; Jonas Keller, Physikalisch-Technische Bundesanstalt; K. Pyka, Physikalisch-Technische Bundesanstalt; T. Burgermeister, Physikalisch-Technische Bundesanstalt; H.L. Partner, Physikalisch-Technische Bundesanstalt; Miroslav Doležal, CMI; Petr Balling, CMI*

## Time Transfer II

Session Type: Lecture

Session Code: C1L-C

Location: Room 3 - R.E.48

Date & Time: Thursday, June 26, 2014 (9:00 - 10:40)

Chair: Daniele Rovera, Observatoire de Paris

### **Comparison of Cesium Fountain Clocks in Europe and Asia** ..... 239

*A. Zhang, National Institute of Metrology; K. Liang, National Institute of Metrology; Z. Yang, National Institute of Metrology; F. Fang, National Institute of Metrology; T. Li, National Institute of Metrology; D. Piester, Physikalisch-Technische Bundesanstalt; V. Gerginov, Physikalisch-Technische Bundesanstalt; S. Weyers, Physikalisch-Technische Bundesanstalt; A. Bauch, Physikalisch-Technische Bundesanstalt; M. Fujieda, National Institute of Information and Communications Technology; I. Blinov, Scientific Research Institute of Physical-Technical and Radiotechnical Measurements; A. Boiko, Scientific Research Institute of Physical-Technical and Radiotechnical Measurements; Y. Domnin, Scientific Research Institute of Physical-Technical and Radiotechnical Measurements; A. Naumov, Scientific Research Institute of Physical-Technical and Radiotechnical Measurements; Y. Smirnov, Scientific Research Institute of Physical-Technical and Radiotechnical Measurements; A. Sen Gupta, National Physical Laboratory; P. Arora, National Physical Laboratory; A. Acharya, National Physical Laboratory; A. Agarwal, Scientific Research Institute of Physical-Technical and Radiotechnical Measurements*

<b>GPS Frequency Transfer with IPPP .....</b>	<b>240</b>
<i>G. Petit, Bureau International des Poids et Mesures; A. Kanj, Bureau International des Poids et Mesures / Centre National d'Études Spatiales; A. Harmegnies, Bureau International des Poids et Mesures; S. Loyer, CLS; J. Delporte, Centre National d'Études Spatiales; F. Mercier, Centre National d'Études Spatiales; F. Perosanz, Centre National d'Études Spatiales</i>	
<b>Link Calibration Against Receiver Calibration Time Transfer Uncertainty When Using the Global Positioning System .....</b>	<b>241</b>
<i>Daniele G. Rovera, Observatoire de Paris; Jean-Marie Torre, Géoazur, Université de Nice Sophia-Antipolis; Robert A. Sherwood, NERC Space Geodesy Facility; Michel Abgrall, Observatoire de Paris; Clément Courde, Géoazur, Université de Nice Sophia-Antipolis; Myrtille Laas-Bourez, Géoazur, Université de Nice Sophia-Antipolis; Pierre Ulrich, Observatoire de Paris</i>	
<b>Absolute Calibration of GNSS Time Transfer Systems at CNES .....</b>	<b>242</b>
<i>Amale Kanj, Centre National d'Études Spatiales / Bureau International des Poids et Mesures; David Valat, Centre National d'Études Spatiales; Jérôme Delporte, Centre National d'Études Spatiales</i>	
<b>Time Transfer Using a Calibrated GPS-Galileo Receiver .....</b>	<b>243</b>
<i>Pascale Defraigne, Royal Observatory of Belgium; Wim Aerts, Royal Observatory of Belgium; Giancarlo Cerretto, Istituto Nazionale di Ricerca Metrologica; Giovanna Signorile, Istituto Nazionale di Ricerca Metrologica; Alice Cernigliaro, aizoOn</i>	
 <b>Frequency Combs II</b>	
Session Type: Lecture	
Session Code: C2L-A	
Location: Main Aula	
Date & Time: Thursday, June 26, 2014 (11:00 - 12:40)	
Chair: Thomas Südmeyer, LTF-UNINE	
<b>INVITED: Quantum Cascade Lasers Comb Spectrometers .....</b>	<b>244</b>
<i>Jérôme Faist, ETH Zurich</i>	
<b>Photonic Synthesis of Low Noise W-Band Signals .....</b>	<b>245</b>
<i>Tara M. Fortier, National Institute of Standards and Technology; Antoine Rolland, National Institute of Standards and Technology; Frank J. Quinlan, National Institute of Standards and Technology; Fred Baynes, National Institute of Standards and Technology; Archita Hati, National Institute of Standards and Technology; Scott A. Diddams, National Institute of Standards and Technology</i>	
<b>Passively Phase-Locked Fiber Frequency Comb .....</b>	<b>246</b>
<i>David Fehrenbacher, Universität Konstanz; Thomas Kälberer, Universität Konstanz; Denis V. Seletskiy, Universität Konstanz; Alfred Leitenstorfer, Universität Konstanz</i>	
<b>Phase-Predictable Tuning of Single-Frequency Optical Synthesizers .....</b>	<b>247</b>
<i>Thomas Puppe, TOPTICA Photonics AG; Felix Rohde, Physikalisch-Technische Bundesanstalt; Erik Benkler, Physikalisch-Technische Bundesanstalt; Reinhard Unterreitmayer, TOPTICA Photonics AG; Armin Zach, TOPTICA Photonics AG; Harald R. Telle, Physikalisch-Technische Bundesanstalt</i>	

## Cold Atoms and Clocks

Session Type: Lecture

Session Code: C2L-B

Location: Room 2 - R.N.02

Date & Time: Thursday, June 26, 2014 (11:00 - 12:40)

Chair: Krzysztof Szymaniec, National Physical Laboratory

### High-Accuracy Measurement of the Blackbody Radiation Frequency Shift of the Ground-State Hyperfine Transition in $^{133}\text{Cs}$ ..... 248

*S.R. Jefferts, National Institute of Standards and Technology; T.P. Heavner, National Institute of Standards and Technology; T.E. Parker, National Institute of Standards and Technology; J. Shirley, National Institute of Standards and Technology; E.A. Donley, National Institute of Standards and Technology; N. Ashby, National Institute of Standards and Technology; F. Levi, Istituto Nazionale di Ricerca Metrologica; D. Calonico, Istituto Nazionale di Ricerca Metrologica; G.A. Costanzo, Politecnico di Torino*

### Long Term Evolution of Key Physical Parameters in Atomic Fountain Frequency Standards ..... 249

*J. Guéna, Observatoire de Paris; M. Abgrall, Observatoire de Paris; P. Rosenbusch, Observatoire de Paris; B. Chupin, Observatoire de Paris; M. Tobar, University of Western Australia; M. Lours, Observatoire de Paris; Ph. Laurent, Observatoire de Paris; S. Bize, Observatoire de Paris*

### Uncertainty Evaluation of the Fountain Primary Frequency Standard KRISS-F1(Cs) ..... 250

*Sang Eon Park, Korea Research Institute of Standards and Science; Myoung-Sun Heo, Korea Research Institute of Standards and Science; Taeg Yong Kwon, Korea Research Institute of Standards and Science; Kurt Gibble, Pennsylvania State University; Sang-Bum Lee, Korea Research Institute of Standards and Science; Chang Yong Park, Korea Research Institute of Standards and Science; Won-Kyu Lee, Korea Research Institute of Standards and Science; Dai-Hyuk Yu, Korea Research Institute of Standards and Science*

### Mitigation of Frequency Shifts in a Cold-Atom Coherent Population Trapping Clock ..... 251

*E. Blanshan, National Institute of Standards and Technology; F.-X. Esnault, National Institute of Standards and Technology; J. Kitching, National Institute of Standards and Technology; E.A. Donley, National Institute of Standards and Technology*

### Large Area Cold Atom Gyroscope ..... 252

*Indranil Dutta, Observatoire de Paris; Remi Geiger, Observatoire de Paris; Carlos Garrido Alzar, Observatoire de Paris; Arnaud Landragin, Observatoire de Paris*

## Galileo and Time Dissemination

Session Type: Lecture

Session Code: C2L-C

Location: Room 3 - R.E.48

Date & Time: Thursday, June 26, 2014 (11:00 - 12:40)

Chair: Pierre Waller, European Space Agency

### GPS to Galileo Time Offset Operations ..... 253

*Edward Powers, United States Naval Observatory; Blair Fonville, United States Naval Observatory; Joerg Hahn, European Space Agency; Alexander Mudrak, European Space Agency*

### Precise Timing with the Galileo Early Open Service ..... 254

*Pierluigi De Simone, European Space Agency; Marco Lisi, European Space Agency; Alexander Mudrak, European Space Agency*

<b>The Galileo Time Validation Facility: One Year of Real-Time Steering of the Galileo System Time</b> .....	255
<i>I. Sesia, Istituto Nazionale di Ricerca Metrologica; G. Signorile, Istituto Nazionale di Ricerca Metrologica; A. Cernigliaro, aizoOn; A. Samperi, aizoOn; G. Cerretto, Istituto Nazionale di Ricerca Metrologica; E. Cantoni, Istituto Nazionale di Ricerca Metrologica; P. Tavella, Istituto Nazionale di Ricerca Metrologica</i>	
<b>Performance Results of the Galileo Precise Timing Facility</b> .....	256
<i>Amandine Proia, Thales Alenia Space France; Franck Bourgeois, Thales Alenia Space France; Arnauld d'Heeger, Thales Alenia Space France; Guillermo Salgado, Thales Alenia Space France; Quirino Morante, Thales Alenia Space Italy; Enrico Varriale, Thales Alenia Space Italy; Marco Siccaldi, SKK; Manuel Sanchez-Gestido, Galileo Project Office, European Space Agency; Alexandre Ballereau, Galileo Project Office, European Space Agency; Bernhard Kl. Schlarmann, Galileo Project Office, European Space Agency</i>	
<b>Verification of Time Telegrams in Long Wave Radio Systems</b> .....	257
<i>Matthias Schneider, University of Siegen; Christoph Ruland, University of Siegen</i>	
<b>GNSS &amp; Space</b>	
Session Type: Poster	
Session Code: C3P-E	
Location: R.O.14	
Date & Time: Thursday, June 26, 2014 (14:00 - 15:40)	
Chair: Pascale Defraigne, Royal Observatory of Belgium	
<b>Disciplined Oscillator System by UTC(NIM) for Remote Time and Frequency Traceability</b> .....	258
<i>Kun Liang, National Institute of Metrology; Fei Zuo, Beijing JiaoTong University; Side Zhang, Beijing Trust GPS Science &amp; Technology Development Co., Ltd; Yuan Zhong, Beijing JiaoTong University</i>	
<b>Remote Steering of OCA Local Time Scale Using UTC(OP)</b> .....	259
<i>Myrtille Laas-Bourez, Géoazur, Université de Nice Sophia-Antipolis; Etienne Samain, Géoazur, Université de Nice Sophia-Antipolis; Michel Abgrall, Observatoire de Paris; Baptiste Chupin, Observatoire de Paris; Clément Courde, Géoazur, Université de Nice Sophia-Antipolis; Philippe Guillemot, Centre National d'Etudes Spatiales; G. Daniele Rovera, Observatoire de Paris</i>	
<b>Predicting the Corrections for the Polish Timescale UTC(PL) Using GMDH &amp; GRNN Neural Networks</b> .....	260
<i>Łukasz Sobolewski, University of Zielona Góra</i>	
<b>Implementation of the Real-Time Assessment of Dynamic Allan Deviation and Dynamic Time Deviation</b> .....	261
<i>Michał Kaszania, Poznań University of Technology</i>	
<b>Accurate Time Link Calibration for UTC Time Transfer – Status of the BIPM Pilot Study on the UTC Time Link Calibration</b> .....	262
<i>Z. Jiang, Bureau International des Poids et Mesures</i>	
<b>Surveillance of NTP-Servers in Customer's Network</b> .....	263
<i>Kenneth Jaldehag, SP Technical Research Institute of Sweden; Carsten Rieck, SP Technical Research Institute of Sweden; Jan Backefeldt, TeliaSonera AB; Per Olof Hedekvist, SP Technical Research Institute of Sweden</i>	

<b>Dissemination of Time and RF Frequency via an Optical Link in KRISS</b> .....	264
<i>Myoung-Sun Heo, Korea Research Institute of Standards and Science; Sang Eon Park, Korea Research Institute of Standards and Science; Won-Kyu Lee, Korea Research Institute of Standards and Science; Young Kyu Lee, Korea Research Institute of Standards and Science; Sung-Hoon Yang, Korea Research Institute of Standards and Science; Sang-Bum Lee, Korea Research Institute of Standards and Science; Taeg Yong Kwon, Korea Research Institute of Standards and Science; Chang Yong Park, Korea Research Institute of Standards and Science; Dai-Hyuk Yu, Korea Research Institute of Standards and Science</i>	
<b>A New Steering Strategy for UTC(NTSC)</b> .....	265
<i>Shuhong Zhao, National Time Service Center, Chinese Academy of Sciences; Haibo Yuan, National Time Service Center, Chinese Academy of Sciences; Dongshan Yin, National Time Service Center, Chinese Academy of Sciences; Lili Qu, National Time Service Center, Chinese Academy of Sciences; Wei Li, National Time Service Center, Chinese Academy of Sciences</i>	
<b>Timing Over 4G Mobile Network</b> .....	266
<i>Domas Jokubauskis, Center for Physical Sciences and Technology; Rimantas Miškinis, Center for Physical Sciences and Technology; Dmitrij Smirnov, Center for Physical Sciences and Technology; Emilis Urba, Center for Physical Sciences and Technology; Kęstutis Svirskas, Vilnius University; Bronislovas Dzindzelėta, Vilnius University</i>	
<b>Decentralization of UTC(NICT) System</b> .....	267
<i>Fumimaru Nakagawa, National Institute of Information and Communications Technology; Yuko Hanado, National Institute of Information and Communications Technology; Kuniyasu Imamura, National Institute of Information and Communications Technology; Hiroyuki Ito, National Institute of Information and Communications Technology; Hideki Narita, National Institute of Information and Communications Technology; Tadahiro Gotoh, National Institute of Information and Communications Technology; Ryo Tabuchi, National Institute of Information and Communications Technology</i>	
<b>Modular Time Interval Counter</b> .....	268
<i>R. Szplet, Military University of Technology; P. Kwiatkowski, Military University of Technology; K. Różyc, Military University of Technology; M. Sawicki, Military University of Technology; Z. Jachna, Military University of Technology</i>	
<b>Construction of a Secure Clock Location for Alternative Realization of UTC(SP)</b> .....	269
<i>Glenn Bideberg, SP Technical Research Institute of Sweden; Sven Christian Ebenhag, SP Technical Research Institute of Sweden; Kenneth Jaldehag, SP Technical Research Institute of Sweden; Per Olof Hedekvist, SP Technical Research Institute of Sweden</i>	
<b>The Technology Research of Master and Backup Clock Switch</b> .....	270
<i>Wei Li, National Time Service Center, Chinese Academy of Sciences; Yongliang Xu, National Time Service Center, Chinese Academy of Sciences; Haibo Yuan, National Time Service Center, Chinese Academy of Sciences</i>	
<b>Modeling and Analysis of Navigation Signal Failure Caused by on-Board Atomic Clock Anomalies</b> .....	271
<i>Gangqiang Guan, National University of Defense Technology; Jing Pang, National University of Defense Technology; Yangbo Huang, National University of Defense Technology; Feixue Wang, National University of Defense Technology</i>	

## Microwave Frequency Standards III

Session Type: Poster

Session Code: C3P-G

Location: R.S.38

Date & Time: Thursday, June 26, 2014 (14:00 - 15:40)

Chair: Sang Eon Park, KRISS

### **NPL Primary Frequency Standards: Current Status** ..... 272

*K. Szymaniec, National Physical Laboratory; S.N. Lea, National Physical Laboratory; A. Acharya, National Physical Laboratory*

### **Evaluation of Microwave Leakage and Magnetic Field Inhomogeneity in the Continuous Fountain Atomic Clock FoCS-2** ..... 273

*Antoine Jallageas, Université de Neuchâtel; Laurent Devenoges, Federal Institute of Metrology METAS; Michael Petersen, Université de Neuchâtel; Thomas Südmeyer, Université de Neuchâtel; Jacques Morel, Federal Institute of Metrology METAS*

### **Constructive Polarization Modulation for Coherent Population Trapping Clock** ..... 274

*Peter Yun, Observatoire de Paris; Jean-Marie Danet, Observatoire de Paris; David Holleville, Observatoire de Paris; José Pinto Fernandes, Observatoire de Paris; Emeric de Clercq, Observatoire de Paris; Stéphane Guérandel, Observatoire de Paris*

### **On Efficiency of Laser Pumping for Selective Hyperfine-Level Population in Cesium Atom** ..... 275

*A.I. Magunov, A.M. Prokhorov General Physics Institute of Russian Academy of Sciences / National Research Institute for Physical-Technical and Radiotechnical Measurements; V.G. Palchikov, National Research Institute for Physical-Technical and Radiotechnical Measurements*

### **Broadband Spectroscopic Measurement of Impurity Ions in Crystals Using the Whispering Gallery Modes Technique** ..... 276

*Warrick G. Farr, University of Western Australia; Maxim Goryachev, University of Western Australia; Natalia C. Carvalho, University of Western Australia; Daniel L. Creedon, University of Western Australia; Jean-Michel Le Floch, University of Western Australia; Pavel Bushev, Universität des Saarlandes; Michael E. Tobar, University of Western Australia*

### **Short-Term Stability Improvement of the Microwave Frequency Standard Based on Laser-Cooled $^{113}\text{Cd}^+$ Ions** ..... 277

*J.W. Zhang, Tsinghua University; K. Miao, Tsinghua University; J.Q. Huang, Tsinghua University; S.G. Wang, Tsinghua University; Z.B. Wang, Tsinghua University; L.J. Wang, Tsinghua University*

### **Influence of the Laser Spectrum on the Form of the Coherent Population Trapping Resonance in Optical Dense Medium** ..... 278

*K.A. Barantsev, Saint Petersburg State Polytechnical University; A.N. Litvinov, Saint Petersburg State Polytechnical University*

### **FPGA-Based Triggered-Phase Transient Analyzer** ..... 279

*M. Kazda, Physikalisch-Technische Bundesanstalt*

### **Push-Pull Optical Pumping with Mode-Locked Laser** ..... 280

*Koji Masuda, University of New Mexico; Matthieu Pellaton, Université de Neuchâtel; Gaetano Mileti, Université de Neuchâtel; Ladan Arissian, University of New Mexico; Jean Claude Diels, University of New Mexico*

**Generation of a Nested Frequency Comb** ..... 281

*Ladan Arissian, University of New Mexico; Koji Masuda, University of New Mexico; Jean Claude Diels, University of New Mexico*

**Laser Stabilization & Atom Manipulation**

Session Type: Poster

Session Code: C3P-H

Location: R.S.38

Date & Time: Thursday, June 26, 2014 (14:00 - 15:40)

Chair: Hidekazu Hachisu, NICT

**Compact Semiconductor Laser Modules Designed for Precision Quantum Optical Experiments in Space** ..... 282

*Ahmad I. Bawamia, Ferdinand-Braun-Institut, Leibniz-Institut fuer Hoechstfrequenztechnik; Mandy Krueger, Ferdinand-Braun-Institut, Leibniz-Institut fuer Hoechstfrequenztechnik; Christian Kuerbis, Ferdinand-Braun-Institut, Leibniz-Institut fuer Hoechstfrequenztechnik; Martin Heyne, Ferdinand-Braun-Institut, Leibniz-Institut fuer Hoechstfrequenztechnik; Andreas Wicht, Humboldt-Universität zu Berlin / Ferdinand-Braun-Institut, Leibniz-Institut fuer Hoechstfrequenztechn; Goetz Erbert, Ferdinand-Braun-Institut, Leibniz-Institut fuer Hoechstfrequenztechnik; Achim Peters, Ferdinand-Braun-Institut, Leibniz-Institut fuer Hoechstfrequenztechnik / Humboldt-Universität zu Berlin*

**Multilayer Gas Cells for Compact Optical Frequency Standards** ..... 283

*A. Ch. Izmailov, Institute of Physics, Azerbaijan National Academy of Sciences*

**Cryogenic Sapphire Optical Cavities** ..... 284

*Moritz Nagel, Humboldt-Universität zu Berlin; Klaus Döringshoff, Humboldt-Universität zu Berlin; Sylvia Schikora, Humboldt-Universität zu Berlin; Evgeny V. Kovalchuk, Humboldt-Universität zu Berlin; Achim Peters, Humboldt-Universität zu Berlin*

**Confirmation of Sisyphus Cooling in a  $\sigma^+$  -  $\sigma$ - MOT with Spin 1/2 Atoms on Route to Building a Lattice Clock** ..... 285

*N. Kostylev, University of Western Australia; M. Tobar, University of Western Australia; J.J. McFerran, University of Western Australia*

**Optical Cavity Acceleration Sensitivity Reduction via Feedforward Correction** ..... 286

*Ross A. Williams, National Physical Laboratory; Sean Donnellan, National Physical Laboratory; Teresa I. Ferreira, National Physical Laboratory; Ian R. Hill, National Physical Laboratory; Geoffrey P. Barwood, National Physical Laboratory; Patrick Gill, National Physical Laboratory*

**Experimental Set-Up for Study of Collisions of Cold Mercury Atoms for Optical Frequency Clocks** ..... 287

*Marcin Witkowski, Nicolaus Copernicus University / University of Opole; Slawomir Bilicki, Nicolaus Copernicus University; Bartłomiej Nagórny, Nicolaus Copernicus University; Bartłomiej Przewięźlikowski, Nicolaus Copernicus University; Rodolpho Munoz Rodrigues, Nicolaus Copernicus University; Piotr Żuchowski, Nicolaus Copernicus University; Roman Ciuryło, Nicolaus Copernicus University; Michal Zawada, Nicolaus Copernicus University*

**Compact Fabry-Perot ULE Cavity** ..... 288

*Alexandre Didier, FEMTO-ST Institute; Jacques Millo, FEMTO-ST Institute; Clément Lacroûte, FEMTO-ST Institute; Vincent Giordano, FEMTO-ST Institute; Enrico Rubiola, FEMTO-ST Institute; Yann Kersalé, FEMTO-ST Institute*

<b>Experimental Study on Support-Area-Insensitive Position in Cutout Optical Cavity for an Yb Optical Lattice Clock .....</b>	<b>289</b>
<i>Won-Kyu Lee, Korea Research Institute of Standards and Science; Sang Eon Park, Korea Research Institute of Standards and Science; Chang Yong Park, Korea Research Institute of Standards and Science; Dai-Hyuk Yu, Korea Research Institute of Standards and Science; Sangkyung Lee, Korea Research Institute of Standards and Science; Sang-Bum Lee, Korea Research Institute of Standards and Science; Myoung-Sun Heo, Korea Research Institute of Standards and Science; Taeg Yong Kwon, Korea Research Institute of Standards and Science; Jongchul Mun, Korea Research Institute of Standards and Science</i>	
<b><sup>229</sup>Th and <sup>232</sup>Th Optical Spectroscopy System for Nuclear Frequency Standard .....</b>	<b>290</b>
<i>Victor Troyan, National Research Nuclear University MEPhI; Petr Borisjuk, National Research Nuclear University MEPhI; Andrey Krasavin, National Research Nuclear University MEPhI; Vitaly Palchikov, National Research Nuclear University MEPhI / National Research Institute for Physical-Technical and Radiotechnical Measurements; Alexey Sysoev, National Research Nuclear University MEPhI; Sergey Poteshin, National Research Nuclear University MEPhI; Dmitry Chernyshev, National Research Nuclear University MEPhI; Valery Yakovlev, National Research Nuclear University MEPhI</i>	
<b>Experimental Treatments for the Investigation of Nuclear Optical Transition in <sup>229</sup>Th .....</b>	<b>291</b>
<i>Victor Troyan, National Research Nuclear University MEPhI; Petr Borisjuk, National Research Nuclear University MEPhI; Yuri Lebedinskii, National Research Nuclear University MEPhI; Andrey Krasavin, National Research Nuclear University MEPhI; Alexey Sysoev, National Research Nuclear University MEPhI; Sergey Poteshin, National Research Nuclear University MEPhI; Valery Yakovlev, National Research Nuclear University MEPhI</i>	
<b>Residual Amplitude Modulation and Birefringence Effects in EOM and AOM-RN .....</b>	<b>292</b>
<i>V. Baryshev, FGUP "VNIIFTRI"; E. Aleinikova, FGUP "VNIIFTRI"</i>	
<b>Noise Suppression for the Precise Measurement of Fabry-Perot Cavity with Wide Tunable Range .....</b>	<b>293</b>
<i>Radek Šmíd, Institute of Scientific Instruments of the ASCR, v.v.i.; Martin Čížek, Institute of Scientific Instruments of the ASCR, v.v.i.; Břetislav Mikel, Institute of Scientific Instruments of the ASCR, v.v.i.; Jan Hrabina, Institute of Scientific Instruments of the ASCR, v.v.i.; Josef Lazar, Institute of Scientific Instruments of the ASCR, v.v.i.; Ondřej Číp, Institute of Scientific Instruments of the ASCR, v.v.i.</i>	
<b>Reduction of Residual Amplitude Modulation to <math>1 \times 10^{-6}</math> for Frequency-Modulation and Laser Stabilization .....</b>	<b>294</b>
<i>Wei Zhang, JILA, National Institute of Standards and Technology and University of Colorado; Michael J. Martin, JILA, National Institute of Standards and Technology and University of Colorado; Craig Benko, JILA, National Institute of Standards and Technology and University of Colorado; John L. Hall, JILA, National Institute of Standards and Technology and University of Colorado; Jun Ye, JILA, National Institute of Standards and Technology and University of Colorado; Thomas Legero, Physikalisch-Technische Bundesanstalt; Christian Hagemann, Physikalisch-Technische Bundesanstalt; Dan Matei, Physikalisch-Technische Bundesanstalt; Uwe Sterr, Physikalisch-Technische Bundesanstalt; Fritz Riehle, Physikalisch-Technische Bundesanstalt; Garret D. Cole, Universität Wien; Markus Aspelmeyer, Universität Wien</i>	
<b>Cryogenic Single Crystal Silicon Cavity .....</b>	<b>295</b>
<i>Jacques Millo, FEMTO-ST Institute; Clément Lacroûte, FEMTO-ST Institute; Alexandre Didier, FEMTO-ST Institute; Julien Paris, MyCryoFirm; Vincent Giordano, FEMTO-ST Institute; Enrico Rubiola, FEMTO-ST Institute; Yann Kersalé, FEMTO-ST Institute</i>	

<b>An Iodine-Based Ultra-Stable Optical Frequency Reference and its Application in Fundamental Physics Space Missions .....</b>	<b>296</b>
<i>Thilo Schuldt, German Aerospace Centre; Johannes Stühler, Hochschule Konstanz für Technik, Wirtschaft und Gestaltung; Klaus Döringshoff, Humboldt-Universität zu Berlin; Julia Pahl, Humboldt-Universität zu Berlin; Evgeny V. Kovalchuk, Humboldt-Universität zu Berlin; Matthias Franz, Hochschule Konstanz für Technik, Wirtschaft und Gestaltung; Ulrich Johann, Astrium GmbH; Achim Peters, Humboldt-Universität zu Berlin; Claus Braxmaier, German Aerospace Centre / University Bremen</i>	
<b>Clock Laser Stabilisation on High-Finesse Cavities .....</b>	<b>297</b>
<i>O. Morizot, Université Aix-Marseille; G. Hagel, Université Aix-Marseille; D. Guyomarc'h, Université Aix-Marseille; E. Bizri, Université Aix-Marseille; M. Kamsap, Université Aix-Marseille; C. Chen, National Time Service Center, Chinese Academy of Sciences; Q. Zang, National Time Service Center, Chinese Academy of Sciences; Rf. Dong, National Time Service Center, Chinese Academy of Sciences; T. Liu, National Time Service Center, Chinese Academy of Sciences</i>	

**Highly Stable Master Laser for the Interrogation of SYRTE's Sr and Hg Optical Lattice Clocks ..... 302**

*Olivier Gobron, Observatoire de Paris; Katharina Predohl, Observatoire de Paris; Daniele Nicolodi, Observatoire de Paris; Alban Ferrier, École Nationale Supérieure de Chimie de Paris; Philippe Goldner, École Nationale Supérieure de Chimie de Paris; Rodolphe Le Targat, Observatoire de Paris; Yann Le Coq, Observatoire de Paris*

**Fundamental Tests**

Session Type: Lecture

Session Code: C4L-A

Location: Main Aula

Date & Time: Thursday, June 26, 2014 (16:00 - 17:40)

Chair: Ekkehard Peik, PTB

**INVITED: Muonic Hydrogen and the Proton Radius Puzzle ..... 303**

*Randolf Pohl, Max-Planck-Institut für Quantenoptik*

**Interspecies Comparisons Between Optical and Microwave Clocks ..... 304**

*Chunyan Shi, Observatoire de Paris; Ulrich Eismann, Observatoire de Paris; Jean-Luc Robyr, Observatoire de Paris; Jocelyne Guéna, Observatoire de Paris; Peter Rosenbusch, Observatoire de Paris; Michel Abgrall, Observatoire de Paris; Daniele Rovera, Observatoire de Paris; Sébastien Bize, Observatoire de Paris; Philippe Laurent, Observatoire de Paris; Yann Lecoq, Observatoire de Paris; Rodolphe Le Targat, Observatoire de Paris; Jérôme Lodewyck, Observatoire de Paris*

**INVITED: Tests of Fundamental Physics with Atomic Dysprosium ..... 305**

*Nathan Leefer, Helmholtz-Institut Mainz; A. Gerhardus, Universität Bonn; M.A. Hohensee, University of California, Berkeley; C.T.M. Weber, University of California, Berkeley; L. Bougas, University of California, Berkeley; D. Budker, Helmholtz-Institut Mainz / University of California, Berkeley*

**Compact Atomic Clocks**

Session Type: Lecture

Session Code: C4L-B

Location: Room 2 - R.N.02

Date & Time: Thursday, June 26, 2014 (16:00 - 17:40)

Chair: Patrick Berthoud, Oscilloquartz SA

**INVITED: Compact Atomic Clocks Based on Coherent Population Trapping: Technologies and Performances for Applications ..... 306**

*Stéphane Guerandel, Observatoire de Paris; Jean-Marie Danet, Observatoire de Paris; Peter Yun, Observatoire de Paris; Emeric de Clercq, Observatoire de Paris*

**Pulsed Optical Pumping in a Rb Vapour Cell Using a Compact Magnetron-Type Microwave Cavity ..... 307**

*Songbai Kang, Université de Neuchâtel / Wuhan Institute of Physics and Mathematics of Chinese Academy of Sciences; Christoph Affolderbach, Université de Neuchâtel; Florian Gruet, Université de Neuchâtel; Claudio E. Calosso, Istituto Nazionale di Ricerca Metrologica; Gaetano Mileti, Université de Neuchâtel*

**Stabilizing Temperature in Vapor-Cell Atomic Clocks: the "Isoclinic-Point Thermometer" ..... 308**

*N. Wells, Aerospace Corporation; T. Driskell, Aerospace Corporation; J. Camparo, Aerospace Corporation*

**Spectroscopy in a Micro-Fabricated Rb Cell with Anti-Relaxation Wall-Coating** ..... 309

*Matthieu Pellaton, Université de Neuchâtel; Rahel Straessle, École Polytechnique Fédérale de Lausanne;  
Christoph Affolderbach, Université de Neuchâtel; Yves Pétremand, École Polytechnique Fédérale de Lausanne;  
Danick Briand, École Polytechnique Fédérale de Lausanne; Nico F. de Rooij, École Polytechnique Fédérale de  
Lausanne; Gaetano Mileti, Université de Neuchâtel*

**Time Scales & Time Stamping**

Session Type: Lecture

Session Code: C4L-C

Location: Room 3 - R.E.48

Date & Time: Thursday, June 26, 2014 (16:00 - 17:40)

Chair: Felicitas Arias, BIPM

**INVITED: Picosecond Time Drift Characterization of the Laser Megajoule Timing System** ..... 310

*Eric Meyer, University of Franche-Comté; Vincent Drouet, CEA-DAM; Nicolas Gautherot, University of  
Franche-Comté; François Vernotte, University of Franche-Comté; François Meyer, University of Franche-Comté;  
Michel Prat, CEA-DAM; Pierre Raybaut, CEA-DAM*

**Performances of UTC(OP) based on LNE-SYRTE Atomic Fountains** ..... 311

*M. Abgrall, Observatoire de Paris; S. Bize, Observatoire de Paris; B. Chupin, Observatoire de Paris; J. Guéna,  
Observatoire de Paris; Ph. Laurent, Observatoire de Paris; P. Rosenbusch, Observatoire de Paris; P. Uhlrich,  
Observatoire de Paris; G.D. Rovera, Observatoire de Paris*

**New Level of Advancement of a National Time Scale UTC(SU)** ..... 312

*Sergey Donchenko, National Research Institute for Physical-Technical and Radiotechnical Measurements;  
Igor Blinov, National Research Institute for Physical-Technical and Radiotechnical Measurements;  
Vitaly Palchikov, National Research Institute for Physical-Technical and Radiotechnical Measurements;  
Alexander Goncharov, National Research Institute for Physical-Technical and Radiotechnical Measurements;  
Yury Smirnov, National Research Institute for Physical-Technical and Radiotechnical Measurements;  
Yury Domnin, National Research Institute for Physical-Technical and Radiotechnical Measurements*

**Frequency Combining System for Atomic Clock Ensembles** ..... 313

*Konstantin Mishagin, JSC Vremya-CH / Nizhniy Novgorod State University; Svetlana Podogova, JSC Vremya-CH*
